# The Chicago Daily Tribune

THE WORLD'S GREATEST NEWSPAPER

FINAL EDITION

VOLUME LXXVIII—NO. 261. C.

(COPYRIGHT, 1919, BY THE TRIBUNE COMPANY.)

FRIDAY, OCTOBER 31, 1919.—32 PAGES.

THIS PAPER CONSISTS OF TWO SECTIONS—SECTION ONE.

\*\* PRICE TWO CENTS IN CHICAGO ELSEWHERE THREE CENTS.

## U.S. TO ENJOIN MINE STRIKE

### MAN SHOT AS POLICE BARE WHISKY FRAUD

### Fire on "Doctored Jug" Smugglers; Wing 1, Seize 1.

Every night for more than a week a new passenger automobile, with an engine, has stood in an alley at Augusta street, near Leavitt street. Although the lights were extinguished, the motor always was running. Last night the police decided to investigate.

Potter and Little are president and secretary, respectively, of the association. Neither the assistant state attorneys who conducted the case nor Attorney Charles S. Deneen, counsel for the dairymen, were in court when the jury made its report.

### Wounds Man in Auto.

One fired—once in the air and once in the disappearing machine, which was at the second shot.

### Heirs of 11 Blimp Victims Will Receive \$70,000

Seventy thousand dollars will be distributed by the Goodyear Tire and Rubber company among the heirs of eleven victims of the "blimp" disaster, of July 21, it became known last night. Two death claims are yet to be settled.

### Germany Refuses to Help Blockade Russia

LONDON, Oct. 30.—An official wireless dispatch received from Berlin says Germany's reply to the entente declares to participate in a blockade of soviet Russia because Germany does not believe the blockade would achieve the desired purpose. The dispatch adds that Germany, however, is prepared to assist in any measures against bolshevism which are calculated to obtain the desired end.

### Financiers Combine to Develop China Resources

San Francisco, Cal., Oct. 30.—A group of American financiers under leadership of J. P. Morgan & Co. have combined with financial and industrial resources of Japan for the development of resources of China, Siberia, Manchuria, and Mongolia, according to an announcement here today by Tatsuya Kato, director of the Manchurian railway and the South Manchuria Mining company.

### By Reason of the severe shortage of newsprint throughout the country, and the consequent obligation of newspapers everywhere to conserve paper, commencing Monday, November 3rd, The Chicago Tribune will restrict the average size of its daily issues to 32 pages until the need for conservation is past. The 32 page average will be maintained each week, and should any week day issue exceed 32 pages, other issues in the same week will be correspondingly reduced in size to secure the average.

### The enormous volume of advertising published in the daily Tribune makes this step a hardship upon The Tribune and its advertisers alike. The Tribune hopes, however, that with the co-operation of its advertisers in reducing the amount of their advertising space, the present emergency may be soon passed and a return to normal conditions assured.

### MILK PRODUCERS FREED BY JURY ON CHARGE OF PLOT

### Eight Verdicts Clear Eight Defendants Involved.

After deliberations extending over five hours the eight officials of the Illinois Milk Producers' association, who have been on trial before Judge Joseph H. Fitch in the Criminal court since Sept. 16 on a charge of conspiracy, were acquitted last night.

"We, the jury, find the defendant Arnold Huber not guilty," and so on, the verdicts in turn naming Frank H. Reese, Clinton J. Cooper, Roy Lewis, Charles H. Potter, W. J. Kittle, Robert M. Omann, and William A. Goodwin.

### Defendants Discharged.

Judge Fitch thanked the jurors for their service and discharged the defendants.

"The verdict could not have been other than what it was," President Potter said. "A verdict of guilty against any one of us would have meant the death of the dairy industry and a vital blow to every home in Chicago. Farmers will not work at a loss. If they cannot demand a fair price for their product they will sell their herds."

### Will Continue Price Fixing.

"We shall continue as we always have," he said. "We will determine the cost of producing milk, add a fair profit, and the distributors must pay our price or they won't get the milk."

### Steinway, Piano Maker, Dies in New York Hotel

New York, Oct. 30.—[Special.]—Charles Herman Steinway, president of Steinway & Sons, piano manufacturers, died today at the Sherman Square hotel, where he had lived since 1914. Mr. Steinway attended a dinner last Wednesday night and on returning to his apartment complained of feeling ill. A physician was called and remained in attendance until the end came at 9 o'clock. Mr. Steinway was 62 years old.

### Citizen Robbed of \$310 in Independence Boulevard

Benjamin Beron, 5839 West Fourteenth street, was held up by two men at Independence boulevard and Taylor street at 11:30 last night and robbed of a \$100 Liberty bond, \$180 in cash, and a gold watch worth \$30.

### By Reason of the severe shortage of newsprint throughout the country, and the consequent obligation of newspapers everywhere to conserve paper, commencing Monday, November 3rd, The Chicago Tribune will restrict the average size of its daily issues to 32 pages until the need for conservation is past. The Tribune hopes, however, that with the co-operation of its advertisers in reducing the amount of their advertising space, the present emergency may be soon passed and a return to normal conditions assured.

### TURN ABOUT IS FAIR PLAY

This is what the coal strike will inflict upon the public.

And this is what the public will inflict upon the strike promoters.

### TWO CHILDREN'S ADVENTURE ENDS IN DEATH OF ONE

It was quite an expedition for the children. There was no one home. The basement was very dark and a candle had been provided.

One by one he began to place lumps of coal in the scuttle. It tipped. The girl reached to right it and the candle fell from her hands. They were in darkness. A moment later a tiny flame showed at the bottom of her skirt. The flame flared up.

### Steinway, Piano Maker, Dies in New York Hotel

New York, Oct. 30.—[Special.]—Charles Herman Steinway, president of Steinway & Sons, piano manufacturers, died today at the Sherman Square hotel, where he had lived since 1914. Mr. Steinway attended a dinner last Wednesday night and on returning to his apartment complained of feeling ill. A physician was called and remained in attendance until the end came at 9 o'clock. Mr. Steinway was 62 years old.

### Citizen Robbed of \$310 in Independence Boulevard

Benjamin Beron, 5839 West Fourteenth street, was held up by two men at Independence boulevard and Taylor street at 11:30 last night and robbed of a \$100 Liberty bond, \$180 in cash, and a gold watch worth \$30.

The Tribune hopes, however, that with the co-operation of its advertisers in reducing the amount of their advertising space, the present emergency may be soon passed and a return to normal conditions assured.

### 'COAL HERE WILL OUTLAST STRIKE'

### Compromise Is Predicted Before City's Supply Is Exhausted.

With the impending coal strike finding Chicago only ten days from a coal famine, Amedeo J. Casey, editor of the American Coal Journal, yesterday predicted the strike would end before the city's supply was exhausted.

Mr. Casey declared the "operators" hope that a few days, or a week's shut down will satisfy the radical demands and that by early next week all the middle of next week, a conference between the opposing sides will be called.

### Steinway, Piano Maker, Dies in New York Hotel

New York, Oct. 30.—[Special.]—Charles Herman Steinway, president of Steinway & Sons, piano manufacturers, died today at the Sherman Square hotel, where he had lived since 1914. Mr. Steinway attended a dinner last Wednesday night and on returning to his apartment complained of feeling ill. A physician was called and remained in attendance until the end came at 9 o'clock. Mr. Steinway was 62 years old.

Normal for the day, 46 degrees.				Excess since Jan. 1, 1.85 degrees.			
Precipitation for 24 hours, 5 p. m., 1.25 inches.				Excess since Jan. 1, 1.85 inches.			
Highest wind velocity, 20 miles an hour from the south at 10:52 a. m.							
Relative humidity, 7 a. m., 93; 12 noon, 86; 7 p. m., 93.							

### NIGHT BOMBS AIMED AT HOME AND THEATER

Two bombs were exploded in the city near midnight last night. One was placed on the front porch of the residence of George Miller at 1803 North Tripp street. It broke several windows and wrecked the front steps of Miller's house. Miller is foreman of an upholstery factory at 412 South Leavitt street, where a strike is in progress.

### POLICE RESERVE READY TO STOP HALLOWEEN RIOT

Sixteen hundred members of the police reserve will be on duty tonight to assist the regular force in making Chicago's Halloween celebration peaceful and law-abiding.

### By Reason of the severe shortage of newsprint throughout the country, and the consequent obligation of newspapers everywhere to conserve paper, commencing Monday, November 3rd, The Chicago Tribune will restrict the average size of its daily issues to 32 pages until the need for conservation is past. The 32 page average will be maintained each week, and should any week day issue exceed 32 pages, other issues in the same week will be correspondingly reduced in size to secure the average.

### The enormous volume of advertising published in the daily Tribune makes this step a hardship upon The Tribune and its advertisers alike. The Tribune hopes, however, that with the co-operation of its advertisers in reducing the amount of their advertising space, the present emergency may be soon passed and a return to normal conditions assured.

### MINERS READY TO RECEDE ON TERMS, CLAIM

### Modify Demands as Last Resort, New Rumor.

BY HARVEY DEUEL.  
Indianapolis, Ind., Oct. 30.—[Special.]—The United Mine Workers tonight are said to be prepared to abandon their demand for the six hour workday.

This statement, coming from a source close to Acting President John L. Lewis, the strike leader, taken in conjunction with the fact that the operators will meet in Cleveland tomorrow, ready to remain in session until an agreement settling the strike is reached, is said to warrant the assertion that both sides are preparing to get together and settle their differences without federal interference.

In return for abandoning the demand for the six hour day and the modification of their demand for a 50 per cent increase in wages, the miners are reported as expecting the operators to agree to curtail, if not abandon, Saturday work and to concede "a moderate" increase in wages.

### "The Public Will Pay."

These concessions, men close to the operators say, they are prepared to make. According to these men, the chief question in the mind of the operators is the price the public will be willing to pay for coal, for, in the last analysis, the public will have to pay the increased wages.

It is probable that some day will elapse before any definite proposal for the resumption of negotiations comes from either side. Such a proposal may well come from Secretary of Labor Wilson or some other representative of the federal government. In this way, it is admitted, it would save the faces both of union leaders and operators.

### Lowden and Goodrich Meet.

While the miners' conference was in progress Gov. Lowden of Illinois arrived in Indianapolis to address the teachers' convention and went into immediate conference with Gov. Goodrich of Indiana at the Claypool hotel. The impending strike was discussed, as well as measures which state authorities should take to meet the crisis.

### Union Fight for Supremacy.

B. R. Batty, vice president and general manager of the Ogilvie Coal company, and one of the most prominent of the Indiana operators, declared today the radical attitude adopted by the mine workers' executives to be due to a fight for supremacy in the organization.

### Lewis Confronted by Strategy.

"Lewis faced the alternative of opposing Farrington's adherents or going along with them. Farrington hoped that he would adopt the former course, and thereupon Farrington intended to oppose Lewis for the presidency at the next election.

### Text of Lewis' Telegram.

Secretary Wilson, on instructions from President Wilson, sent to the executive council of the United Mine Workers a telegram which is said to urge the miners to modify their walk-out edict. The text has been withheld. President Lewis sent the following reply to Secretary Wilson:

"Your telegram of the 29th inst. was read by me to the assembled conference of members of our international executive board, the scale committee of the central competitive field and

### CLEAN THE SLATE, THEN THE MINERS WILL NEGOTIATE

THE TRIBUNE last night asked President John L. Lewis of the United Mine Workers to state precisely the conditions under which his organization would at this time enter a conference with the coal operators, looking to a settlement.

Mr. Lewis, from Indianapolis, sent this statement in reply: "The conference must be approached without reservations. Heretofore the operators have insisted upon three: First, that the question of hours should not be discussed; second, that the mines should be kept in operation; third, that any new agreement entered into should date from April 1, 1920, and not from Nov. 1."

"We are ready now, and always have been, to discuss any proposition. But the negotiations must start with all aspects of the question open. The operators have merely to assent to the last conditions and the discussion of an agreement can proceed at once."

THE TRIBUNE sought also to get from Chairman Brewster of the operators a statement of their position, but Mr. Brewster was en route from St. Louis to Cleveland and could not be reached.

From a source understood to be authentic, it is said the union would not hold out for the six hour day and the five day week. These demands were put forward to satisfy a big radical element which otherwise would have revolted from the Lewis regime. In other words, the thirty hour week would be a trading point.

### THE LABOR CRISIS

### PRESIDENT WILSON, at sickroom conference, approves cabinet measures to avert public suffering and industrial chaos during coal strike. Wartime fuel allocation, distribution, rationing, price fixing, production curtailment, and use of all armed forces to prevent rail paralysis and disorder are made immediately effective or authorized for eventualities. A sweeping federal injunction restraining the United Mine Workers, its officials and members, from striking will be asked in Indianapolis this morning by Assistant Attorney General Ames of Washington, D. C.

### "LONG series of usurpations of constitutional powers by the executive, inconsistency in his declarations as to whether the nation is or is not at war, his alliance with sinister financial interests, and physical disability which prevents him from knowing the facts of the controversy," are given as causes for the strike in a telegram from President Lewis of the United Mine Workers to Secretary Wilson. Indianapolis operator charges strike is result of quarrel between union officials seeking "soft job for life" as president of the union. Late official reports are that miners will recede from full demands at last hour.

### SENATE resolution provides unstinted aid for administration in its handling of strike situation. Now up to house to give its approval.

### ALL states provide means to cope with strike at mines involved in union order.

### REDS VENT RAGE AT YUDENITCH BY A BUTCHERY

BY AXEL MOOS.  
[Chicago Tribune Foreign News Service.]  
[By Special Cable.]  
COPENHAGEN, Oct. 30.—Refugees arriving at Helsingfors from Petrograd say that the bolsheviks, furious at the threatened attack of Petrograd by Gen. Yudenitch's army, have executed thousands of officers and prominent people. Hundreds of prisoners in jail are being shot, it is said, and their bodies thrown into the Neva river.

### OPENING DRIVE ON UNION AREA VIA INJUNCTION

### Drastic Smash at Labor Today in Indianapolis.

BY ARTHUR SEARS HENNING  
Washington, D. C., Oct. 30.—[Special.]—Following a two hour session of the cabinet and a twenty minute conference of President Wilson with Attorney General Palmer, the word went forth tonight that the government intends to swing the full force of its power at once against the miners' unions, scheduled to strike on Saturday.

Charles E. Ames, assistant to the attorney general, left Washington for Indianapolis, where he will arrive tomorrow morning to direct legal processes against the organizations and individuals responsible for the order to tie up the bituminous mines, employing 600,000 men.

While the federal program of procedure was being drafted, Indiana state officials moved to meet the crisis through other legal channels.

### Goodrich to Act with U. S.

After Mr. Ames started for Indianapolis, however, Mr. Palmer, through a long distance telephone conversation with Gov. Goodrich of Indiana, learned that the state program would conflict with the policy determined on at Washington and requested that nothing be done until the arrival of Mr. Ames in Indianapolis.

The steps determined upon by the Indiana officials at a conference attended by Gov. Goodrich and the attorney general of the state were drastic ones. They had progressed as far as the drawing up of indictments charging the officials of the United Mine Workers of America, both great and small, with conspiracy.

### Will Seek Federal Injunction.

At the request of Mr. Palmer this action has been held in abeyance; and instead, it is said, the United States district attorney will go before Judge Anderson in the Indianapolis federal court tomorrow morning and ask for a sweeping injunction in which the United Mine Workers of America, as an organization, will be made co-defendant with the eighty-eight national and local officers.

If granted, this injunction, it is said, will forbid the "encouraging of the strike by word of mouth, book, or pamphlet," and will prohibit the use of the organization's funds in any way for the promotion of a strike.

Violation of such an injunction is punishable as contempt of court, and large fines might be assessed. A violation in which all eighty-eight union officials could be held responsible, therefore, might result in fines that would make a serious dent in the organization's treasury.

### Entire Union Made Defendant.

It is for that reason, it is said, that the organization as a whole will be made a co-defendant.

United States District Attorney L. Ert Flack of the Indianapolis district left Chicago last night for Indianapolis, it was learned here, to be present at the morning conference.

## COMMONS GIVES PREMIER A VOTE OF CONFIDENCE

Approves of Policy on Finances by Large Majority.

LONDON, Oct. 30.—[By the Associated Press.]—The government was given a vote of confidence in the house of commons tonight on its financial policy by an overwhelming majority of 300 to 100.

An amendment to the government resolution moved by John R. S. Morrison, laborite and former food controller, was rejected, 405 to 50, and the government resolution was unanimously adopted.

The resolution, which was drafted at a cabinet meeting on Monday, declared that this house, realizing the effects upon the trade and industry of the nation of the enormous financial burdens resulting from the war, promises its hearty support to the government in all reasonable proposals, however drastic, for the reduction of expenditures and the diminution of debt.

**Quickly Disposed Of.**

Although the ministers' speeches had been wholly devoted to defending the financial estimates presented by Austen Chamberlain, chancellor of the exchequer, and virtually no plans had been outlined for serious retrenchment, the house amendment, calling for a return upon capital and the reversion to the state of fortunes made from the war, was quickly disposed of, and when the government motion was put from the chair, although the laborites challenged division they did not persist, and the motion was adopted without dissent amid loud cheers and ironical applause.

Nothing was indicated during the course of the debate concerning the "proposals," however, mentioned in the government motion, and the ministerial speeches seem to show that the government is relying on the growth of the country's industries and commerce as the best means of meeting the financial burden, the expressed anxiety being to calculate to injure the country's credit abroad.

**Premier Defends Expense.**

Mr. Lloyd George defended the government expenditure in military matters. He contended that it was true money and enabled England to have a strong position in reserve to put a march on Berlin, if necessary, and thereby force Germany to peace.

"It was a drastic treaty," the premier said, "which the Germans have signed unless they knew we were prepared to compel them."

"Without that treaty we should have substituted a defeat for a deficit," the government would have declared impeachment."

There was no justification, the premier declared, in assuming that Germany would pay nothing, and, regarding the financial situation, England was in a position with no counter in the world.

After the prime minister had spoken, Mr. John R. S. Morrison, laborite, likened the premier's speech to "an illusion of performance." Much criticism came from the labor benches.

**MADE TRAFFIC MANAGER.**

A formal announcement was made yesterday that the appointment of Brian R. McCulloch as president and traffic manager of the Chicago and Northwestern Railway Company, effective Nov. 1, 1919.

**MADE TRAFFIC MANAGER.**

A formal announcement was made yesterday that the appointment of Brian R. McCulloch as president and traffic manager of the Chicago and Northwestern Railway Company, effective Nov. 1, 1919.

**MADE TRAFFIC MANAGER.**

**MADE TRAFFIC MANAGER.**

A formal announcement was made yesterday that the appointment of Brian R. McCulloch as president and traffic manager of the Chicago and Northwestern Railway Company, effective Nov. 1, 1919.

## "FULL LIBERTY!" THEIR SLOGAN

Delegates to Chicago Convention Which Seeks Complete Suffrage for Women.

Above—Mrs. W. E. Price, Mrs. E. B. Cooley, Mrs. Mary E. Sykes. Below—Mrs. Howard T. Willson, Mrs. Charles E. Nagely, Mrs. Julius R. Kline.

## SUFFRAGE MEET PROVES 'MANNISH' CARTOONS FALSE

Stylish Delegates Are Contradiction of Old Caricatures.

The late unlamented Kaiser was a sample of finest intelligence as compared with those citizens of Illinois who refuse to vote for delegates to the constitutional convention. This was one of the verbal hot shots which Mrs. Grace Wilbur Trout fired in her opening address to the women attending the fifty-first annual conference of the Illinois Equal Suffrage association at the Hotel La Salle yesterday.

A number of reasons why women want the ballot were given: The equal pay for equal work standard; the league of nations, which "should not be used as a means through which to build up campaign material of any kind"; Americanization work, which would instruct women voters in American ideals and prevent the automatic citizenship, etc.

"We are humble in our desire for the ballot," the speaker announced, "because we know women are not abnormally intelligent. But just think how lonesome men would be if we were."

The suffrage convention delegates

many of them gowned in the height of fashion, came from all over the state and presented a different aspect from the old-fashioned suffrage cartoon of women with hard features and hideous, mannish clothes.

**Oglesby Predicts Victory.**

"Full suffrage for women," said Mrs. Grace Wilbur Trout, president of the Illinois Equal Suffrage association, at the session last night, "would avoid disturbances and bloodshed. The best way to Americanize politics is to give full freedom to American women. There are more American born women of voting age in the United States than there are foreign born men and women together. Women must have the full vote."

Lieut. Gov. John Oglesby predicted that the women of Illinois would be fully enfranchised as a result of the constitutional convention.

More than \$2,500 was raised by Mrs. Jacob Baer by a fifteen minute speech.

**Officers Nominated.**

The morning session was devoted to nomination of new officers, who will be elected this morning. Those nominated were:

President—Mrs. Grace Wilbur Trout, Chicago.

First vice president—Mrs. George A. Soden, Chicago.

Second vice president—Mrs. Judith Werl Lowenthal, Chicago.

Recording secretary—Mrs. Samuel Slade, Highland Park.

Corresponding secretary—Mrs. J. W. McGrath, Chicago.

Treasurer—Mrs. Blanche R. West, Bushnell, Ill.

**MADE TRAFFIC MANAGER.**

A formal announcement was made yesterday that the appointment of Brian R. McCulloch as president and traffic manager of the Chicago and Northwestern Railway Company, effective Nov. 1, 1919.

## KOLCHAK BEST OF BAD BARGAINS TO "RECOGNIZE"

That's as Far as Americans in Siberia Go in Advising U. S.

BY FREDERICK A. SMITH. (Chicago Tribune Foreign News Service.)

PEKING, Oct. 30.—Kolchak wants the United States to loan him government \$200,000,000 and send 50,000 American soldiers to guard 1,500 miles of the Siberian railroad, which has been under the protection of the Czechs since last spring.

A later cable will show how small a part the Americans are now playing in guarding the road with approximately 7,500 men in Siberia and how the allied operation is a practical failure, and why.

Giving Kolchak an American army would entail a great expense of transport of men and supplies, and require more Red Cross work. Making the loan would necessitate the sending of American agents to see that the money was properly disbursed. It would involve America in a struggle, which possibly would continue indefinitely and would add to the danger of clashes not only between the United States and the Japanese, but with certain factions of the Russians themselves.

**Kolchak's Methods and Obstacles.**

It is interesting, therefore, in view of the fact that influential Americans in the far east are striving to induce us to accede to the Kolchak plan, to briefly review the supreme ruler's methods as I observed them during my three weeks' stay at Omak.

It will be well to remember Kolchak's present difficulties. He is not only out of sympathy with hundreds of thousands of Russians in Siberia, but the mass of the people are apathetic toward his aims, or any aims. There is still a large number of persons with bolshevik tendencies in Siberia. There are almost numberless groups with an eye on political preferment and always on the lookout for a chance to seize authority.

**Not an Antecede.**

Kolchak, in assuming the title of supreme ruler, was necessarily autocratic in some directions, but his acts of clemency and his patience with the apathy of those who should stand behind him seem to show that he is no tyrant.

Americans are divided on the question of whether he should be recognized, but are almost unanimous that he is the best available leader at this time.

Coming out from Omak to eastern Siberia one is assailed by the question: "How strong is Kolchak? Is he going to preserve the government?" The only answer lies in that some strong bridges on a railroad apparently well guarded have been blown up overnight.

In any other country than Siberia this might be justified by saying that Kolchak is strong enough to maintain the government and hold back the Reds, but there are too many sleeping political volcanoes in Siberia and the people are too uncertain of their own minds to make any prediction safe.

**STEAL \$2,500 COAT IN LOBBY.**

A pink coat valued at \$2,500 was stolen from the show window of the Real Quality shop, 502 South Michigan avenue, early yesterday morning by robbers, who broke the glass.

## DAIL EIREANN CONVENES WHILE ARMY WATCHES

Irish Congress Holds First Meeting Since "Suppression."

BY FLOYD GIBBONS. (Chicago Tribune Foreign News Service.)

DUBLIN, Oct. 29.—[Delayed.]—While the constabulary and military secret service were keeping their eyes wide open and their ears intent, "Dail Eireann," the republic of Ireland's congress, held its first meeting since its recent suppression yesterday. Most of the seventy-three members were present. For six hours affairs of state were discussed and voted on. President De Valera's report from the United States was read and business was transacted without a breath of disturbance from the armed forces without.

Today there was considerable excitement about Dublin castle. The Sinn Feiners declare they stole a march by calling a secret meeting a day ahead of the date previously agreed on. So the attack on Mansion house, which they say was planned for today, was automatically postponed.

The parliamentarians came prepared for the raiding and now, that the events passed quietly, they fear wholesale arrests—perhaps a charge of conspiracy against all Dail's membership.

**Griffiths Presides.**

Acting President Arthur Griffith opened the meeting by referring to the English government action in declaring the Dail Eireann illegal. This move was followed by the suppression of the Irish nationalist press. They now have shown a willingness to listen to the Sinn Feiners' views.

Dail Eireann's commission to inquire into national resources—the condition of the manufacturing and primary industries—is now at work. The Limerick technical schools, which the government closed, have been opened by the Sinn Fein ministry. Trade representatives have been sent to the United States, France, Italy, Switzerland, and Argentina. The industries committee reported development of direct trade with many nations despite the English efforts to interfere. Steps have been taken to render ineffective the British order to reach American sailors entering Ireland.

**Read Report from De Valera.**

The agricultural department reported it was engaged in developing the scheme and said it was of tremendous assistance to the campaign in America, as letters from De Valera testified. Chairman Griffiths read reports from the president saying the meetings addressed were enthusiastic. In Cleveland he received a presidential salute of twenty-one guns and was accompanied by a procession of police and militia. He is sanguine that the loan drive in the United States will be a complete success.

**Reply to Admiral Sims' Charges.**

It is interesting to note that Michael Collins, who is minister of finance, and Robert Barton, who is minister of agriculture, are both in hiding in Dublin. This afternoon made a statement denying the allegation against the Sinn Feiners in Admiral Sims' article as reproduced in the British press. In reply to Sims' accusation that the Sinn Feiners communicated with Germany, the latter declared the British tried for years to find one proof of it, but failed. It is likewise with the alleged German plot which Sims mentions.

## KING AND QUEEN SEE PRESIDENT; SAIL HOME TODAY

Wilson Requests a Chat When Albert Calls at White House.

Washington, D. C., Oct. 30.—King Albert and President Wilson clasped hands today. The meeting at the president's bedside proved the climax of the American visit of the Belgian monarch, and he left Washington late tonight to sail for home from Newport News at noon tomorrow on the transport George Washington, which brought him to this country.

From the day he landed the pleasure of his tour has been marred by anxiety over the president's condition. When he drove to the White House, Albert did not expect to see the president, but at the president's earnest request Dr. Grayson consented to a brief chat. The king went alone to the sick room, operating the elevator himself. His call lasted ten minutes.

**Asks About Belgium.**

The visitor seated himself at the bedside and the president apologized for not being able to rise. Mr. Wilson showed great interest in the transatlantic tour of the Belgian monarch, and Albert related incidents of the journey, many of them amusing, for he has a keen sense of humor, and spoke of the remarkable development of the United States in the twenty-one years which have elapsed since his previous visit.

Mr. Wilson asked about conditions in Belgium, England, and France, and listened eagerly to Albert's replies. He inquired particularly about Premier Lloyd George and Clemenceau, voicing high regard for both of them.

As his majesty was leaving he leaned over the bed to shake Mr. Wilson's hand again and said:

"I hope your ideas and ideals will be carried out, and I believe they will be."

**Calls for Queen and Prince.**

"I am very anxious to stay as long as I can," Albert said repeatedly to Dr. Grayson. "Will you let me know when I must go, but please don't make it too soon."

After the departure of the king, the president expressed a desire to see Queen Elizabeth, who was having tea with Mrs. Wilson. Dr. Grayson consented and her majesty went eagerly to the executive's bedside, where she remained five minutes.

**Chaired by the Visit.**

In his chat with the queen, Mr. Wilson said he wished he might see Prince Leopold. Her majesty looked inquiringly at Dr. Grayson, who said he would not assume the responsibility. Then the president took the decision into his own hands and the heir apparent was summoned.

Mr. Wilson told him how much he looked like his father, adding: "Your father is every inch a man and I hope you will follow in his footsteps."

Dr. Grayson said his patient had been greatly cheered by his talk with the Belgian monarchs and that their visit seemed to have done him good.

For the Belgians this was a busy day. The king went to Annapolis to review the midshipmen of the naval academy and the queen went to Baltimore to inspect two hospitals. Part of the afternoon was devoted by both of them to receiving honorary degrees.

## A Beauty Secret

Beauty is largely a question of good health. And you cannot enjoy good health without proper food. If you want food that will improve your health and appearance—that will work wonders toward giving you the clear, smooth skin, the rosy complexion and the bright eyes that win admiration, make friends and bring success—try the simple, sensible, old-time remedy of eating a few Jonathan Apples a day. You'll be delighted with the results.

The ancients were not far wrong when they esteemed apples the magic renewer of youth. There's a world of truth in the time-worn saying, "An apple a day keeps the doctor away."

## Jonathan's Apples

are filled with elements that make healthy bodies. They contain iron, which the blood needs—phosphorus, which strengthens the mind and nerves—sulphur, which is a great blood purifier and drives out of the body the noxious matters which cause skin eruptions—magnesia, which purifies the blood and assists the bowels.

Apples that contain all these wonderful health-giving elements, combined with delicious flavor and aroma, beautiful appearance and unusual keeping qualities, grow to perfection in the rich health-laden soil and clean air of the high volcanic plateaus of Washington, Oregon and Idaho. So, be sure to insist on rich red Jonathans from these States, which are always packed in boxes instead of barrels. Your retail dealer can supply them.

## WHITE RUSSIANS CALL ON FINLAND TO THROTTLE RED

Intervention May Come  
if Its Rights Are  
Recognized.

### BULLETIN.

LONDON, Oct. 30.—A wireless dispatch received from Moscow reports that Gen. Yudenitch has been compelled to evacuate Gatchina, owing to the fact that the bolsheviks are menacing his line of communication.

HELSINGFORS, Finland, Oct. 30.—[By the Associated Press.]—Extraordinary pressure is being brought to bear to induce Finland to join in the attack of the anti-bolshevik forces on Gatchina.

C. G. Lianozov, head of the government of northwest Russia, has arrived here to enter into negotiations for Finnish intervention. M. Yennola, prime minister of Finland, declared that Finland might intervene, provided its rights and those of the Finnish tribes in Karelia to self-determination, as defined by President Wilson, are recognized by Russia, but said the Finnish diet must decide the question.

### SOUTH RUSSIA

HELSINGFORS, Oct. 30.—A report from Russian sources says Gen. Denikin has recaptured Orel from the bolsheviks and is advancing toward Moscow.

Hot Fighting for Dnieper. LONDON, Oct. 30.—Severe fighting is reported between Gen. Denikin's troops and those of Gen. Petlura, the Ukrainian commander, who recently split with Denikin and opened hostilities on his forces.

The Petlura forces, the statement declares, have been driven from several villages in the Zhmerinka district.

### PETROGRAD.

LONDON, Oct. 30.—A bolshevik wireless communication received here today says:

"The Red army, despite the strongest resistance, has occupied a series of villages around Gatchina and also has advanced and captured a number of points fourteen miles eastward and sixteen miles southward of Luga, and at the same time is conducting a successful attack southeast of Gdov."

Lenine Speaks. Nikolai Lenine, Russian bolshevik premier, is quoted in a wireless message from Moscow as declaring: "The chief trump in our hand in international revolution, without which there is no hope of Russia's success. There are two ways of exit from this position, the first of which is dying."

### SOUTH AMERICA CLASH

Insistent reports from Bolivia state that an invasion of Chilean territory has been made by Peruvian troops. The Chilean minister at Washington denies any knowledge of such action.

The northern provinces of Chile are barren and extremely arid, but in spite of this they are exceedingly valuable. Vast natural beds of nitrate salts are found there.

Peru, Bolivia, and Chile had a war in the latter half of the last century, in which the two former got much the worst of it. The shaded portion of the map shows the area in question.

to music, which I leave to political novices. The second I propose. We must weigh the moment; we still have gold and armored cars. We must throw out all useless persons and retire underground. The power will probably be seized by the bourgeoisie and military, but the time will come when the bolshevik will emerge from underground."

### NORTH RUSSIA

ARCHANGEL, Oct. 29.—[Delayed.]—A further advance of the north Russian army is reported by the general staff today. Its statement claims that the anti-bolshevik forces have reached Birmucheff, 150 versts south of Onega. The capture of 2,000,000 cartridges, 1,000 shells, and other booty is reported.

## GATCHINA, ONCE A GARDEN SPOT, NOW DESOLATE

Only Palace of Dowager  
Empress Undisturbed  
by Red Regime.

Appended is another cable dispatch from Richard Henry Little, The Tribune correspondent in Russia. Within a day or two after it was filed Mr. Little was seriously wounded in an attack on the Russian northern army by the bolsheviks.

BY RICHARD HENRY LITTLE.  
[Chicago Tribune Foreign News Service.]  
[By Special Cable.]  
[Copyright, 1919, By the Tribune Company.]

GATCHINA, Oct. 28.—[Delayed.]—This little town was once one of the most beautiful spots in all Russia. Here in the palace of Gatchina lived the czar's mother, the Empress Maria Fedorovna, and here the czar had a large deer park.

Maria Fedorovna is now in exile, living in Copenhagen, but if she cares to know it her house of 600 rooms has not been damaged by the bolsheviks. I have walked for hours through the palace and have been in at least 500 of the 600 rooms. Not a painting or a book, or piece of tapestry has been disturbed. Even Maria Fedorovna's dresses are still hanging on their appointed hooks in the closets, and the books which she had evidently been reading in the little sitting room, and left open when she made her hurried exit, are still there, just as she left them.

Why Property Was Saved. Though this was mighty nice of the bolsheviks, people of Gatchina who do not

want their names mentioned, because they have some doubts regarding the ability of the northwestern army to hold the town, say the bolsheviks, realizing their inability to produce anything and that they could only live on what had accumulated under the czar's government, had made most stringent laws, making all former government property sacred. What the bolsheviks wanted to protect was the great storehouses of provisions, clothing, and munitions, but a feeling that the bolshevik masses might not make a fine distinction between storehouses and palaces made all government property out of bounds for the soldiers and the common bourgeoisie.

A Desolated City. Gatchina is now a grim and silent place. I have seen a Kansas town in regions stricken by grasshoppers and drought. I have been in towns in the south after a smallpox contagion, and in towns in China where the plague had raged for months, and in other cities cursed by famine. Gatchina looks today as though, for two years, it had had everything—smallpox, the plague, drought, famine, and grasshoppers. It is a picture of desolation. There is horror and sadness everywhere. In the dark, tumble-down buildings twenty-three old women are sick and starving.

Hears and Sees Executions. As we came in from the front yesterday our machine was stopped by a crowd of people in the road. They were watching a man who stood against a wall while a file of soldiers in front of him leveled their rifles. At the word of command they fired and the man fell dead. A soldier in the crowd told me the man was formerly the communist commandant at Jamburg, who had been found guilty by court martial and executed accordingly.

Just a few yards from our house two mornings ago I heard the rattle of rifles in the king's deer park. One of our guards said six communist cadets, captured the day before, had been shot. These are the only executions of com-

munist of which I have heard since I have been in Gatchina. The Whites have arrested none of the civilian population for showing sympathy for the soviet cause during the Red regime here that I have heard of. Martial law prevails, of course, and all citizens are required to be off the street after 5 in the afternoon, unless provided with a military pass. The passing of soviet money or the sale of it is punished as severely as we punish people for circulating counterfeit money in America. I have tried in vain to buy some of this money, but people gladly present me with all I want to carry, but they will not accept payment for it or any article in exchange, even cigarettes, because they say they would be put in jail if they did.

Children Try to Sing Gratitude. The only bright spots in town are the kitchens where the American Child Fund association is feeding several thousands of the children of Gatchina and those who are refugees from Tsar-sko Selo and other towns from which the Reds have been driven by the Yudenitch troops. It is the first time I have ever liked to listen to people eating soup. The little Russians stop eating their soup and do their best to sing the first verse of "My Country, 'Tis of Thee" when an American enters the kitchen. The attempt is heart-rending, but the children are so thin and white and so anxious to show their gratitude to America that it—well, it gets your nanny.

Two Chicagoans Add to  
Tanner Children Fund

THE TRIBUNE yesterday received two additional contributions to the fund for the Tanner children, whose parents were killed on a grade crossing of the Northwestern railroad company at Glenview. Frances M. Reilly of Chicago sent a check for \$2.20 and Albert C. Koch of Chicago contributed \$10.

## PERUVIAN TROOPS INVADE CHILE, IS BOLIVIAN REPORT

SANTIAGO, Chile, Oct. 28.—News-paper reports received indirectly from La Paz, Bolivia, state that insistent rumors are in circulation there that Peruvian troops have invaded north Chilean territory.

The Chilean foreign minister and other officials who have been questioned by the correspondent of the Associated Press deny that any such invasion has taken place.

They say that the Chilean govern-

ment is amply prepared to deal with any such contingency and that an attempt of such a nature should be impossible.

Check Girl Sues La Salle  
Hotel for \$5,000 Tips

Miss Ida Glafke, a checkroom girl, formerly employed by the Hotel La Salle, yesterday filed suit for \$5,000 against the hotel company, seeking to recover tips received by her while working in the checkroom of the blue fountain room. Miss Glafke asserts in the declaration that she received an average of \$15 a day in tips, all of which she turned over to the hotel.

## ITALIAN PAR RENEWS AT UPON WILL

Says U. S. Lavis  
on Others; Now  
to Be Dictated

ROME, Oct. 28.—[Delayed.]—Tribuna makes another attack on Wilson and the American government in connection with Italian claims. Complains by the newspaper that the State lavishly pours money into Europe, but the zone of these.

"Italy," the Tribuna says, "American armies on her soil and saw no golden river crumbs remaining from given to other countries, the Red Cross. There were signs of the 'Star Spangled'

Had Nothing to Do with. "After fighting alone," the paper adds, "Italy conquered a national enemy. One man to deny her the fruits of war, to allow this man to weigh in, causing internal and national discord." The article concludes with a "to the moral conscience of the world, and above all, to the conscience of the people."

### HOPE IN U. S. SEN.

BY HENRY WALKER  
[By Wireless to The Chicago Tribune.]  
[Copyright, 1919, By the Tribune Company.]

PARIS, Oct. 30.—Following Italy's rejection of Tittoni's latest proposition for settlement of the Fiume affair, await the action of the United States on the league of nations attempting to have the problem. If the senate decides against the league or insists that the United States be limited to membership without partaking various mandates Italy hopes, the whole Adriatic seaboard with Great Britain and France.

Both Clemenceau and Lloyd George are willing to give Italy a mandate for Fiume and to a with the projected plebiscite at expiration of fifteen years. If a decision can be stalled until the votes against America mixing in European politics and troubles, feels sure his new plan will be adopted by the other powers, and that Wilson would be unable to free if the league of nations the United States decided in Italy.

The French and British negotiations are beginning to resent Wilson's persistent attitude the Fiume question. And the conference realizes that it has no means of driving the issue out, despite the American question of "an economic blockade pressure."

Muddle Grows Worse. LONDON, Oct. 30.—Diplomatic circles here are deeply disturbed by developments with respect to Fiume. Private advices from Italy that public opinion has veered in favor of D'Annunzio since the news of Tittoni's proposals. It is feared that these proposals would have been acceptable Italian people a few weeks ago, not satisfy them now. It is felt that the situation is such that the only solution lies in the league of nations.

THIRTEEN DOLLARS AND A HALF

CHARGE PURCHASES MADE TODAY WILL BE PLACED ON NOVEMBER ACCOUNT, PAYABLE IN DECEMBER.

## ITALIAN PAPER RENEWS ATTACK UPON WILSON

Says U. S. Lavished Aid  
on Others; Now Seeks  
to Be Dictator.

ROME, Oct. 28.—[Delayed.]—The Italian paper, "Il Tribuna," makes another attack on President Wilson and the American government in connection with an article on Italian claims. Complaint is made by the newspaper that the United States lavishly poured men, arms and money into Europe, but that Italy got none of these.

"Italy," the Tribune says, "saw no American armies on her battlefields and saw no golden rivers except crumbs remaining from what was given to other countries, brought by the Red Cross. There were no other signs of the 'Star Spangled Banner.'"

Had Nothing to Do with Italy.  
"After fighting alone," the newspaper adds, "Italy conquered her traditional enemy. One man then arose to deny her the fruits of victory—a man who had nothing to do with Italy during the period of neutrality or war; nothing to do with the agreements concluded with the allies; nothing to do with the sorrows and ideals which led Italy to war."

"Is it possible," asks the Tribune, "to allow this man to weigh on Italy's future, causing internal and international discord?"  
The article concludes with an appeal to "the moral conscience of the civilized world, and above all, to the moral conscience of the people."

### HOPE IN U. S. SENATE

BY HENRY WALKES.  
[By Wireless to The Chicago Tribune.]  
Copyright: 1919: By The Tribune Company.]

PARIS, Oct. 29.—Following Secretary Lansing's rejection of Premier Tassin's latest proposition for the settlement of the Fiume affair, Italy will wait the action of the United States senate on the league of nations before attempting to have the problem solved. If the senate decides against joining the league or insists that the United States be limited to nominal membership without participating in the various mandates Italy hopes to arrange, the whole Adriatic question remains with Great Britain and France.

Both Clemenceau and Lloyd George are willing to give Italy a perpetual mandate for Fiume and to dispense with the projected plebiscite at the expiration of fifteen years. If the solution can be stalled until the senate acts against America mixing into European politics and troubles, Tassin will have his new plan will be accepted by the other powers, as President Wilson would be unable to interfere if the league of nations without the United States decided in favor of Italy.

The French and British peace delegates are beginning to resent President Wilson's persistent attitude on the Fiume question. And the conference realizes fully that it has no means of driving D'Annunzio out, despite the American suggestion of "an economic blockade and financial pressure."

Handle Grows Worse.  
LONDON, Oct. 29.—Diplomatic circles here are deeply disturbed over developments with respect to Fiume. Private advice from Italy says that public opinion has veered sharply toward D'Annunzio since the failure of Tassin's proposals. It is deemed that these proposals, which would have been acceptable to the Italian people a few weeks ago, would not satisfy them now.

It is felt that the situation is tenuous and that the only solution lies in the hands of the nations.

WARREN FUND PASSES \$30,000.  
The National Home for the Aged fund will have the \$30,000 mark Thursday morning, came in at a Sunday morning in the Morrison Hotel.

## CERVANTES II.

Famous Spanish Novelist Who  
Will Study Americans for a  
Future Book.

Vicente Blasco Ibañez

New York, Oct. 30.—Vicente Blasco Ibañez, noted Spanish author, will soon deliver a course of lectures at Columbia university. He plans a novel based on American characteristics. Asked for his impressions, he said New York made him feel as if it was "built by giants," and that in America he is conscious of the "poetry of power." The celebrated writer does not speak English.

## DYERS FED HER WITH STICKS, IS AUNT'S EVIDENCE

Mrs. Lizzie Jones Dyer, wealthy widow, mistress of the house of the "bedroom periscope" at 5458 Cornell avenue, was at the beginning just as much in love with Mrs. Josephine A. Dyer as was Russell J. Dyer, the son and husband.

Letters so testifying, alleged to have been written by Mrs. Dyer to her cousin-daughter-in-law, were introduced by Attorney Charles F. Rathbun into the evidence before Judge McKinley yesterday afternoon. Mrs. Josephine Dyer is asking \$100,000 from Mrs. Lizzie J. Dyer for the lost affections of Russell.

One of the letters written on July 23, 1913, a few days after the wedding, asserts that the young bride had completely won the heart of her mother-in-law.

Mrs. Josephine S. Fisher of Minneapolis, Minn., an aunt of Mrs. Josephine Dyer, took the witness stand toward the close of yesterday's session. She came to Chicago in 1914, six days after Russell Dyer had told his wife that their married life had to end. "When I arrived I asked Russell what he had to say," Mrs. Fisher testified, "and he replied that he wouldn't talk to me. They served my dinner that night on a billiard table and shoved the food at us with sticks. Everything was so quiet that I thought I was at a funeral."

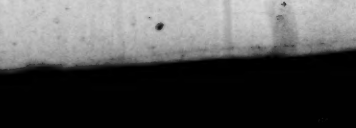

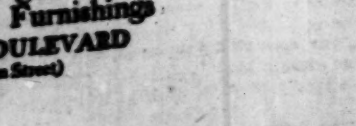

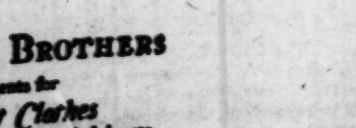

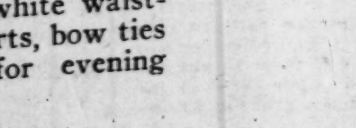

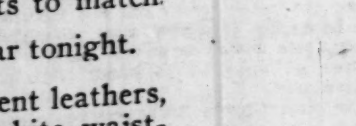

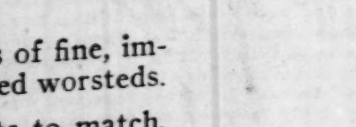

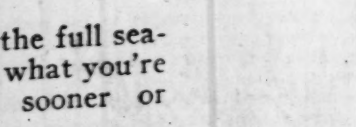

Russell Dyer took the witness stand long enough to identify some letters.

## SENATE TO REACH RESERVATIONS IN DAY OR TWO

About Out of Amendment  
Ammunition; Wait  
for Wilson.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., Oct. 30.—[Special.]—The treaty forces in the senate are at last face to face with the long avoided reservation issue and with no prospect of consulting President Wilson as to the course they should take.

There can be no compromise, opposition leaders declared emphatically today. The fourteen reservations framed by the foreign relations committee to safeguard American rights and interests in the treaty are assured a majority vote in the senate. The administration side must either yield to the will of the majority and accept the reservations or reject the treaty, it was asserted.

Confronted by these alternatives, the Democratic leaders can secure no assurances from Dr. Grayson as to when the president will be able to receive them and give them their instructions.

Amendments Over in Day or Two.

The amendments will be out of the way within a day or two—not later than the middle of next week. The only important amendments remaining are a proposal by Senator La Follette to strike out the labor sections and one by Senator Gore of Oklahoma requiring the submission of all declarations of war to a popular referendum. Both of these probably will be defeated without much debate and then the reservations will be before the senate.

In the absence of final instructions from the White House, wide differences of opinion have arisen among the Democrats as to the course to be pursued. Senator Hitchcock and others declare they will vote to reject the treaty if the Lodge reservation pro-

gram is attached. Other Democratic senators believe the country would not approve such a drastic step and will support the treaty as modified by the reservations.

In the opposition camp it was predicted today that the Democratic demands for haste would no longer be heard, and that administration leaders would begin to play for time.

Hold Imaginary Trump.

Some light was thrown today on the mysterious administration trump card to be played at the last minute. The administration leaders believe they will be able to obtain a ruling from Vice President Marshall holding that even if the ratification resolution is rejected the treaty will remain before the senate and that they will then be in a position to offer a substitute resolution of "mild" compromises. Opposition leaders insisted rejection of the treaty ended the matter and declared they had sufficient votes pledged to hold out against ratification of the treaty unless the Lodge program was accepted.

## 4 DIAZ GENERALS CAPTURED, CLAIM

Galveston, Tex., Oct. 30.—Four generals, comprising the staff of Felix Diaz, were captured and twenty-five of his followers were killed in an encounter with Mexican federal troops at Misantla, state of Vera Cruz, last Tuesday, according to an official message received today by Meade Fierro, Mexican consul here. Federal troops had trapped the Diaz party, but Diaz himself escaped.

Wet, but Thirsty, They Plot to Bomb Milwaukee Bldg.

Milwaukee, Wis., Oct. 30.—Threats to blow up the federal building as a result of the ban on liquor sales have been made, it became known today. Little attention has been paid to the threats.

Distinctive Vanity Cases

Vanity cases are ever fashionable. They are exhibited here in sufficient effects adaptable to any costume.

The vanity case illustrated is of 14 karat solid gold of the new empire shape—elaborately engraved inside and outside. This dainty feminine requisite makes a very appropriate gift.

Truly we  
are the  
Home of Home Outfits

### Because

We have given more thought, more consideration to the complete furnishing of a home than to any other portion of our business, and have trained our salesmen so that they are able to give expert advice if requested.

### Because

We realize that a home is a permanent investment, and with that in mind, buy only such merchandise that we can guarantee to give perfect service.

### Because

Our furniture and rugs are always priced as low as possible consistent with guaranteed quality.

### Because

We grant the privilege of an extended account, which allows you to determine the amount of your monthly remittances—extending your account over any period satisfactory to you.

Go to Spiegel's store nearest your home—inspect the displays—let their salesmen assist you in making comparisons of quality and price—then judge for yourself the merits of the merchandise.

Truly—we are the Home of the Home Outfit, because we sell more of them than any other company in Chicago.

## The Chicago Tribune

THE WORLD'S GREATEST NEWSPAPER

FOUNDED JUNE 16, 1847.

ENTERED AS SECOND CLASS MATTER, JUNE 3, 1895, AT THE POSTOFFICE AT CHICAGO, ILL., UNDER ACT OF MARCH 3, 1879.

All unsolicited articles, manuscripts, letters, and pictures sent to "The Tribune" are sent at the owner's risk, and the Tribune company expressly disclaims any liability or responsibility for their safe custody or return.

FRIDAY, OCTOBER 31, 1919.

"Our Country! In her intercourse with foreign nations may she always be in the right; but our country, right or wrong!"  
—Stephen Decatur.

### THE TRIBUNE'S PLATFORM FOR CHICAGO

- 1—Lessen the Smoky Horror.
- 2—Create a Modern Traction System.
- 3—Modernize the Water Department.
- 4—Build Wide Roads Into the Country.
- 5—Develop All Railroad Terminals.
- 6—Push the Chicago Plan.
- 7—Rush the South Shore and Ogden Avenue Improvements.

### FOR THE LEAGUE—WITH RESERVATIONS.

The senate has disposed of amendments to the covenant of the league of nations—even of the amendments equalizing the voting strength in the assembly of the league. It will seem strange, in later years, when we think that an American senate declined to uphold an American equity, but what is wrong in the league will be its weakness. If its opponents care to make it weak by making it wrong the opponents need not worry.

If a real purpose is to be served by this modern tower of Babel it will be served only if the tower is on a strong foundation. If the United States is injured by the agreements to which the senate subscribed, the United States, later recovering from its altruistic trance, will withdraw from the league and thereby weaken it.

Sensors who have been endeavoring to amend the covenant and to apply reservations have been the real friends of the league. They have been working to make it possible for the United States to remain in an international scheme which would endure and which would promote peace.

The altruistic exaltation of this generation of senators may not suit the practical needs of another generation of Americans. If it does not, the practical needs will govern. The opposition in the senate has consulted the future. The altruism has sought a moral thrill out of the present.

The amendments are defeated. The reservations which are still to be considered would be adopted if real consideration for the interests of the United States and for the stability of the league governed. They assert the position of the United States. They do not require revision of the covenant by the peace council. They do not even require the consent of other nations. They merely state that the United States enters the league upon such and such conditions.

These conditions ought to govern.

### ALADDIN?

If Mayor Thompson can present a street car scheme which will give a 5 cent fare he may seem like a magician waving a wand, but the result will be fine.

Just now he has the appearance of Aladdin rubbing his lamp. The committee on local transportation is willing to allow him to try. The city council ought to be willing to allow him to try. The public will be interested in having him succeed.

There are contract equities which must prevail to keep the good faith of the city with investors, but there are contract equities which must keep the good faith of the city to its citizens.

Mr. Thompson may find a way to give the city good service, a 5 cent fare and keep faith with valid claims. He is not precisely the man we would have picked as capable of doing it, but that small bit of prejudice will not deny the hope that he might be able to do it.

### DEATH AT THE WHEEL.

In emphasizing the great number of deaths and injuries caused by motor accidents, THE TRIBUNE is trying to bring home to the average motorist that a great majority of mishaps are the result of carelessness.

It is an aphorism that an automobilist must not only watch himself but the other fellow as well. Drivers often are victims of their own negligence. Far too often they are the victims of the carelessness of others. And this is as true of pedestrians as motorists.

Too many pedestrians fail to observe the simple precaution of "stop, look, and listen." Too many pedestrians insist upon personal privilege to the point of a disastrous collision with an automobile. A motorist may plainly be beyond his rights by speeding, by thrusting his car over a crossing, or by driving on the wrong side of the road. The fact that a motorist is guilty of gross law violation hardly compensates the pedestrian who perishes in martyrdom to establish the legality of his position and the lawlessness of the motorist's.

A pedestrian, haughtily conscious of his right to cross a street, will saunter casually, though the pavement be slippery and though there isn't the slightest assurance that the approaching motorist, tons of steel, may not resist the brakes and skid down upon him. There is no question here of the pedestrian's rights; the motorist clearly may be at fault, but what principle has been reinforced after the pedestrian has been killed or injured?

The safety first doctrine asks each person to guard himself. It is easier to let a speed maniac have his way than to prove him wrong by getting under his car. The police will take care of the speeder. They can't take care of unwise pedestrians.

Too many automobilists are selfish. They are impatient of delays, demand the right of way, are arrogant of the rights of pedestrians, and take wildest chances and endanger themselves and all those round them for the sake of gaining some trivial traffic advantage.

The pedestrian who insists upon his rights of thoroughfare to the point of personal injury is in the minority. The average pedestrian is thoughtful, careful, and courteous. The average automobilist may think he is courteous, but he is not.

He is thinking of getting on and inwardly resenting the obtuse foot passenger.  
Motorist restrictions must be fashioned to teach unselfishness. Drivers have got to think less of themselves and more of others. They have got to learn that to put on the brakes and stop the car is easier than going to Joliet.

### DAYS OF WRATH.

The coal miners said they were willing to negotiate to prevent a strike. The operators said they were willing to negotiate and arbitrate to prevent a strike. The government asked both the miners and the operators to negotiate or arbitrate or both to prevent a strike. So it was decided to do neither and have a strike.

That makes it nice. A railroad strike is somewhere in the wake of the coal strike, which, when it comes, will make it nice. With a coal strike the public has merely to consider how best to freeze to death gracefully, but with a railroad strike as an added attraction the public will have an opportunity really to come out strong.

We may learn to get along without anything. It never has been done before. The public might succeed in a hunger strike. It can do no worse than try.

We emphatically assert that the public must not have its vital processes interrupted by these strikes. And we candidly concede that it does have its vital processes interrupted by them. A strike must not hit at the full dweller's radiator, the householder's base burner, and suburbanite's furnace. And a strike does. The public must be protected and the public is not. The public is the ward of mandates and the victim of facts. The public always is king, but there is always a regency.

The boy who sits on the top of the world these days is the farmer. He is there. He can go to his dairy for his milk and the kids can gather the eggs. His potatoes are in his bins. His salt pork is in his brine and hams are in the smokehouse. He can carry his own wheat to the mill.

He is a going concern if the world suspends. Sell your factory and buy a farm. The worst walkout is that of the cattle from the field into the corn. The worst lockout is that of forgetting the key.

Young man, stick on the farm. There is nothing in the west but bolsheviks and nothing east but labor conferences. Buy a photograph and a phor, put in a telephone, get a lot of machinery to do the work, let the cider garden by the instant process of nature, and thus live, not caring whether Mr. Gompers or Mr. Gary has the world by the tail.

### PARKS FOR THE FUTURE.

Without trespassing to any authority at this time we think the park plan of the Cook County Real Estate board is deserving of praise and that if it justifies the approval of the city officials it ought to go far to solve the problem of park expansion.

How to provide parks for the future, open places and playgrounds in newly developed residence districts long has been troublesome. The Cook county board proposes to make it a rule that in the opening of new subdivisions a certain percentage of such land—5 per cent of forty acres and more—shall be given to the city with the understanding that it shall be maintained by the city, falling which it shall be returned to the original owners.

This would seem sound from the standpoint of the real estate dealers and the city alike. Residence property near parks obviously is enhanced in value and the public welfare certainly is benefited.

Had some such course as this been available during the years which saw the enormous expansion of the northwest side we should now be congratulating ourselves upon a much greater park system than we have as well as taking comfort out of the healthful environment provided.

There must be provision made for new and large parks. Many who laughed when such "frontiers" as Washington and Jackson parks were laid out have lived to see them both far within the city limits, and in fact surrounded by our most densely populated districts.

Even Lincoln park was in the "country." Now we find the Lincoln park commissioners reclaiming the very lake to make new parks for the great residential district which spreads far beyond what once was considered farm land.

Expansion must be southwest, west, and northwest. Fortunately the forest preserve is ready to become the great outer park system of the future. But it is miles from the boulevards to forest preserves. There should be dozens of breathing places between.

### Editorial of the Day

THOSE PUBLIC POLICY QUESTIONS.

The public policy questions on which voters are asked to pass next Tuesday are designed to commit the constitutional convention to the particular initiative and referendum program advocated by William Randolph Hearst and other leaders of the Hearst faction in the Democratic party.

While the vote on these questions is not mandatory on delegates to the convention, it is expected to have influence in determining the course of that body. The initiative and referendum and gateway Amendment league, which is directing the campaign for the adoption of the amendments through Mr. Hearst's newspapers and other agencies, has undertaken to secure from candidates specific pledges binding them to the league plan. The league has succeeded in getting a number of such pledges from Democratic candidates, who hope to obtain thereby not only the league's help but the help of organizations and individuals interested in the enactment of radical legislation and the submission of various questions. Among the latter are those who desire to make the single tax the basis of revenue in Illinois; those who favor state socialism in one form and another, and those who desire to reopen in Illinois the "wet and dry" question.

If the league was able to secure the votes of all to whom its program appeals it would have a powerful influence in determining the result of the election in many districts, but it is observed that most candidates have declined to become identified with its movement. Candidates who are solicitous for the success of the constitutional convention realize that if they commit themselves, in advance, to any particular program, their work is predestined to failure. They understand that if they are to get anywhere they must prepare a constitution which the great body of the people will commend. And they understand that they will be unable to do this, if before they meet, their hands are tied with promises.

Men who realize how difficult it will be to draft a constitution which will receive popular support have in mind all the while the fate which befell the work of the celebrated constitutional convention of New York. That convention enlisted the best brains of the Empire state, but its production went for naught because of antagonisms created by the recognition accorded special interests.

Candidates who have declined to make pledges in advance of their election have taken the sensible course. And the public will be equally sensible if it votes against the public policy questions submitted through the efforts of Mr. Hearst's league.

### A LINE O' TYPE OR TWO.

"Lord, what fools these mortals be!"

**BULLETIN.**  
The President's feeling fit, Say Grayson, Ruffin, and Stitt. His's morning is bright, So this is the last—  
Grayson, Ruffin, and Stitt.

ACCORDING TO Gov. Smith, Mr. Hearst is an assassin of character, an enemy of the people, and an apostle of discord. Well, what of it? Every man has his little peculiarities. Aside from him, Mr. Hearst is an admirable citizen.

**HE PROBABLY SUBSCRIBES TO VOCUE.**  
Sir: Lamped a street cleaner in twenty-dollar boots and a forty-five dollar leather coat. What is that the height of?

**JOHN CLAYTON**, cables his colleague Mr. Lewis, is stiff and sore from a seven-mile hike in a driving rain from Plume, whence he was carried, up a lot of clay. Mr. Clayton is not in condition. He is corresponding, takes one into the open air, and there are fifty old gentlemen hereabouts who can do twice seven miles in a driving rain, pushing a golf ball before them.

**ANOTHER SERP DEMANDS A SHORTER DAY.**  
[From the Hedrick, Ill., Journal.]

In order that we may have the privilege of spending a few evenings at home with our family, beginning November 1 our store will close at 8:30 p. m., except Wednesday and Saturday evenings.

**THERE** was a "Hallow E'en Eve Party" at the South Shore Country club yesterday. After dark, we take it.

**Preserved Bartlett.**  
Sir: Here's where the jam clogs of the Academy doubles a bureau of genealogical information. I hereby appeal thereto for data as to the whosness, whereness, and whatness of M. B. N., whose revered great-grandfather was Preserved Bartlett of Northampton. My interest is due to the fact that some of the Bartlett family was my mother's great-grandfather, being my mother's mother's father's father. It must be the same Preserved Bartlett, as, obviously, there could not have been a pair of that name.

**THE** vox popper who complained that the South Side L runs twice as slowly as formerly has stirred up a lot of wags who want to know how fast twice as slow is.

**SMALL TOWN CURIOSITY.**  
[From the Oskan Bee.]

"My Sunshine Lady" troupe stopped off in Oskan several hours on Saturday morning. They came here from Prairie du Chien, Wis., and were transferred to the Rock Island for some point south. We mention this merely to satisfy the curiosity of many who wanted to know who the "swell" ladies were that visited town. They were gorgeously dressed, indicating that they were traveling along the route of prosperity.

**MR. VILLARD** finds that a year after the war democracy is in greater peril than ever. Is not that state of affairs what Mr. Villard and his Nation have been plugging for?

**OUR COUNTRY'S FATHER.**  
LV.

These words are chiseled o'er the door of his tomb. "Within this enclosure rests the remains of General George Washington."

Thus ends the tale of a great and noble man. Who is the honored Father of this Glorious Land.

**LVI.**  
He whipt the British in the great Revolution, 'Twas him that signed the Constitution. Like those we sing, we must all return to clay. And soon shall want the generous tears we pay.

**LVII.**  
So peacefully rest George Washington's fair name; He conquered strife and climbed the pinnacle of Fame. And may his great son lie lightly on the grave Of this great Statesman and Hero brave.

**LVIII.**  
The fragrant flowers be faithful to their duty And ever mark this sacred spot with glowing beauty. Being washed by the rains and kissed by the sun. Thus ends the tale of the great George Washington.

**FROM** which take our readers will part with regret, echoing our wish that the poet will some day give us an ode on Abraham Lincoln. His shorter pieces are not so inspiring as his large canvases. Of other other bards, he needs elbow room.

**THE LITERARY LIBRARIAN.**  
Sir: Worm-eating might properly receive a biological classification, but in the public library in Des Moines you will find, filed away with sketches of T. B. Aldrich, several headed thus: "Aldrich Bill Passes House," "Aldrich on Tariff Reform," etc.

**HARP.**  
"THE" bawling exhibits of lingerie, the captivating hours promading in satins and lace, negligees and nighties, fill the observer with philosophic notions."—Daily News.

**Is for instance?**  
Sir: If the Lancet comes to your desk, you must have noticed how keen the English doctors are to find the very best persons for doing their investigations into food. I see where Roy Barnes is studying cows' milk. Lena Skelton starvation from dried prunes. Henriette Chick the place of poultry in the kitchen, and Rohrer Waters the dangers from the dairy. And yet some people still doubt that medicine is really scientific.

**"MISS OLGA DORFNER**, swimming champion, has given up the one-piece bathing suit for a "braid veil."—Milwaukee Journal.

**THE MINNESOTA SEASON OPENS.**  
[From the Moorhead News.]

Snow began falling this afternoon and sometimes it fell in quantities to fill the air.

**IF** the Senate will make haste and get those reservations out of its system we may all have a chance to lay in some Old Reserve.

**My Eye! as Mr. Drakwater Would Say.**  
[From the Toronto Star.]

Mr. and Mrs. T. Harkness Lester are delighted to be able to announce that they will be at home to their several friends after October 1, in their new apartment over Fuller's Park Shop on Bathurst Street.

**"I, TOO, could call the spirits of the mighty deep."**—Mr. Lewis of the mine workers. Add Familiar Misquotations.

**LOOKING FOR TROUBLE.**  
[From the Peoria Journal.]

Would like acquaintance of good business man or a young farmer, like one with Mr. R. pastime and results. Address C. A. care Star.

**A DELEGATE** to the Episcopal convention in Detroit received this notice: "There will be a meeting of the committee on Wednesday afternoon to pass resolutions in behalf of the departed members, of which you are one."

**For Sale.**—One hundred good barrels. Inquire of L. L. Sober, at Norman's laundry.

**A CABLE** addressed by R. W. H. to his firm in Chicago was returned by the Berlin office with the statement that there are five Chicagos in the United States, and that it would be necessary to specify the province.

**HIGHER MATHEMATICS.**  
Sir: The Trib reports that a Pine Bluff grocer "took a bale of cotton account 1814 at 84 cents a pound, and sold it this week for 55 cents." What was his profit and what is the value of Q?

**WELL**, well, if you remember, we told you to do your cooling early.

## How to Keep Well.

By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, if matters of general interest, will be answered in this column. Where space will not permit, or where the question is not suitable, letters will be personally answered, subject to proper limitations, and where a stamped, addressed envelope is inclosed, Dr. Evans will not make diagnoses or prescribe for individual diseases. Requests for such service cannot be answered.

(Copyright, 1919: By Dr. W. A. Evans.)

### HEREDITY, BRAIN POWER.

**W**HEN certain federal investigators found an unsatisfactory condition of mental health among the very stable population of a penninsular county in Delaware they set about finding some of the causes for it. They found that it could not be attributed to recent immigration, for there were no immigrants in the county. While an undue amount of the trouble was among Negroes, that was not an explanation, since there were but few Negroes in the county.

One settlement was composed of a mixed race calling themselves Moors, a racial result of a mixture of Indian, Negro, West Indian and white blood. With this exception the Negro stock had not influenced any stock except its own. Having ruled out these explanations, they turned to more productive fields of inquiry.

There had been much intermarriage during the several hundred years of occupancy of the sections by these people and their ancestors. There need be no objection to intermarriage provided the people know what conditions are inheritable. But there is great objection when a people know nothing about and care nothing for the laws of inheritance.

Another cause of the trouble was found to be the placing out of children. Much of the work of the county can be done by children. Devoth the people pick and pack berries, plant potatoes and smaller vegetables, mostly in boxes; make holly wreaths—these and many other occupations are very well suited to child labor. In consequence, the people encourage the shipping in of orphans and other waifs from Wilmington, Baltimore, and Philadelphia.

We need not say that many of these children are feeble-minded. Many were found in the schools by the surveys. Some of them remain permanently in the county, marry there and, in many instances, contribute to the talent of the stock.

Many of them starting life with few advantages, marry before they are in an economic condition justifying marriage. Their young children are ill nourished. The doors to make money that permanent mental incapacity results from lack of sufficient nourishment in childhood.

Another cause was the lack of facilities for controlling the feeble-minded. Morons are not any more disposed toward immorality than normal people. In fact, they are less so, but most of the feeble-minded are in residential areas or of self-control, or are indifferent about it.

In consequence, wherever the feeble-minded are under poor control there is a large proportion of illegitimate children, and conversely wherever there are many illegitimate children the proportion of feeble-mindedness is high.

As the reader may have guessed, the bad mental condition found was feeble-mindedness.

### THE FRIEND OF THE SOLDIER

The Friend of the Soldier will cooperate with the war risk insurance bureau of the treasury department, 1307 Stock Exchange building, Chicago, and with the committee of the Chicago Bar association on legal assistance to soldiers and sailors, 105 West Monroe street.

Address inquiries to Friend of the Soldier, Chicago Tribune. Answers to as many as possible will be published in this department. To insure a personal reply an addressed and stamped envelope should be inclosed.

No attention will be paid to anonymous letters.

### AMERICAN LEGION.

Headquarters, 120 West Adams street, Chicago, Ill.

There are still many names of Illinois men missing from the roll of the American Legion. Here is the biggest organization which has been developed since the late war. Any honorably discharged soldier, sailor, or marine, regardless of rank or rating, may become a member.

The state of Illinois can boast of 325 posts of the American Legion, and great promises of still more posts to be established.

The objects and ideals of the legion are to preserve the records of the war, to assist and protect the welfare of war veterans, and to stand for every American principle.

Those wishing a copy of the pamphlet prepared by the American Legion showing its bylaws, constitution, and general activities may have them by sending a stamped, addressed envelope to the headquarters of the American Legion, and if the applicant desires the membership to be effective immediately, a check for \$1.00 should accompany the application to cover the yearly dues.

### FIRST PAPERS VOID.

Chicago, Oct. 29.—[Friend of the Soldier.]—I am of English birth and came to this country about four years ago. I applied for citizenship papers and got my first papers. When the United States entered the war I tried to get in the United States army or some other branch of service in this country. Being rejected at each one, I joined the Canadian forces. I am now told that I have lost my naturalization rights and that these first papers are void. Is it not? Can't I become a citizen now? A. R. H.

By enlisting in the Canadian army you lost your rights of citizenship afforded by these first papers. In order for you to become a citizen you must again file application for citizenship. Go to the chief naturalization examiner, 776 Federal building, Chicago, and they will advise you the steps to take.

### APPLY BY WRITING.

Metamora, Ill., Oct. 27.—[Friend of the Soldier.]—I was discharged from the army last August without any gas mask or army overcoat. Can these be sent to me, or will I have to apply in person? F. A. T.

It will not be necessary for you to visit the bureau; simply send application to the zone supply office, 1819 West Thirty-third street, Chicago, enumerating the articles you wish to redraw.

### INSIGNIA EXPLAINED.

Chicago, Oct. 27.—[Friend of the Soldier.]—I am granted that you, kind sir, are an authority on the insignia as worn on the shoulder of the expeditionary forces in France. If I am right in my supposition, will you please tell me what branch of the service or regiment or division had the insignia of

### SAFETY DEPOSIT

(By Casari for the Universal Military Training League.)

A 100 per cent Man in Peace or War—

### FRIEND OF THE PEOPLE

Letters for this department must be signed with names and addresses of the writers.

### DUMPERS NOTIFIED.

Chicago, Oct. 27.—[To the Friend of the People.]—The tenants of the apartment at the northeast corner of Sixty-seventh street and Champlain avenue have been notified to remove their garbage and ashes. This is a menace to public health and a nuisance.

**J. W. S.**  
Notice has been served on violators to discontinue dumping in this alley and provide necessary cans for garbage and ashes.

**F. S. MITCHELL.**  
Superintendent of Streets.

### NOTICE SERVED ON AGENT.

Chicago, Oct. 28.—[To the Friend of the People.]—The house at 8027 Harper avenue has defective eaves, so that when rains occur, rain runs in the yard and washes mud to the depth of two inches out on sidewalk and parkway in front of my residence.

Water from this yard runs out on sidewalk in front of my residence and froze, and had ice there nearly all winter as a result. Am asking your good office to have this remedied.

**H. M. B.**  
Respecting the complaint against premises, 8027 Harper avenue, I have to advise you that on Oct. 21, 1919, an inspector from this department, as a result of which a notice was served on the agent to repair defective roof gutters and downspouts on building.

**JOHN DILL ROBERTSON.**  
Commissioner of Health.

### NO EVIDENCE OF NUISANCE.

Chicago, Oct. 28.—[To the Friend of the People.]—The chimneys above this house are in a very dilapidated condition, so much so that we are unable to build a fire in our kitchen, lest the roof should catch fire. The one above the dining room is almost as bad, but the agent will not fix them.

Respecting the complaint against premises at 1901 Bissel street, I have to advise you that on Oct. 14, 1919, a careful investigation was made by an inspector from this department, from whose report it appears that there is insufficient evidence of a nuisance to justify action by this department.

**JOHN DILL ROBERTSON.**  
Commissioner of Health.

### STATE BONUS.

Chicago, Oct. 27.—[Friend of the Soldier.]—Has the state of Missouri declared a bonus for its soldiers? If so, am I not entitled to same? I enlisted in the navy at Kansas City, Mo., on June 3, 1917, and was discharged at Charleston, S. C. Is it doing anything at all for its fighters? E. O. E.

The state of Missouri is not giving a cash bonus to its war veterans. A recent session of the Missouri state legislature passed several bills of interest to its ex-service men; namely, an act to maintain an employment bureau, an act authorizing the state to build a memorial, besides a state memorial hall and a memorial in France; an act to direct the state adjutant general to send each ex-service man with an appropriate bronze medal; also an act to authorize the compiling and publishing of a record of Missouri soldiers, sailors, and marines who served in the war with Germany.

**PAY AT AGE 21.**  
Waterloo, Ia., Oct. 28.—[Friend of the Soldier.]—I wish to reduce my policy to \$5,000 and want one on which I pay premiums

## HICKSON SEEKS TO MAKE CHURCH SEAT OF HEALING

Explains His Work and  
Hope for Greater  
Future.

BY THE REV. F. L. GRATIOT.  
and when he had called unto Him  
the twelve disciples. He gave them  
power against unclean spirits, to cast  
them out, and to heal all manner of  
diseases and all manner of diseases.—  
Matthew, 10:1.

Why has that power been lost to the  
church?  
Will the healing ministry of James  
Hickson, layman, communicant  
of the Church of England, bring about  
the revival of that lost power?

Hickson's Purpose.  
"Why carry on my work," says Mr.  
Hickson, "unless it can be made a  
regular and lasting thing in the  
church? The church has the promise  
of the Master. There are many  
who have latent the power of spiritual  
healing. It is my hope that the  
church will make it a regular part  
of its ministry to the sick. It is not  
new; it is nothing unique; God's  
power can and should bring to  
all who are afflicted and sick the  
healing grace of God as given us in  
Christ, our Lord."

I asked Mr. Hickson after the morn-  
ing session at St. Peter's church, Bel-  
mont and Broadway avenue, a few  
questions that are being asked by many  
people.

"Is the healing the result of the  
faith of the patient altogether, or is it  
the result of the power conferred by  
laying on of hands?"  
"Both," said Mr. Hickson. "Our  
power to heal, depended upon  
faith of the person healed, and yet  
we were in Him all power. I have  
been able to help infants when they  
were asleep. I cannot even say that  
healing depends upon belief in our  
side as we believe in Him—that He  
is the incarnate. Several Jews who  
came to me have been healed. I  
bless them all."

Differs from Bible Cases.  
"How is it that in the New Testa-  
ment the healing was usually instan-  
taneous and in your case it is grad-  
ual?"

"Imperfect faith accounts for the  
slowness and speed of healing. Even in  
the New Testament there are instances  
of slow recovery of sight, as the one  
man who at first could see dimly  
and later received his full sight. If  
I am writing of my work I could  
cite forty or fifty cases of instan-  
taneous recovery. Daily I receive let-  
ters of cures that have come grad-  
ually."

One of the cases yesterday was that  
of a boy stricken with infantile paraly-  
sis and whose legs hung useless. After  
receiving the laying on of hands,  
ditched one of Mr. Hickson's hands  
said, "Can't you come and help  
my classmates?"

All Classes and Colors.  
All classes, all colors knelt together  
during their turn. A kindly colored  
woman whose ardent faith shone  
through her tears, knelt beside a richly  
dressed, aristocratic looking woman from  
the drive.

As well as physical ills came  
for treatment in the early afternoon  
was a weak thief was caught making  
off with \$40 from the parish house of  
St. Peter's. The policemen who were called  
to let the man be taken to  
Hickson. Weeping, he confessed,  
saying that he could not help steal-  
ing. Mr. Hickson asked the divine  
aid to restore the moral sense and  
power to resist temptation to the mal-  
factors.

Noted Wisconsin Author and  
Poet Who Died After Relief  
Work Abroad.

Ella Wheeler Wilcox

## Boy of Six Overcome by Gas in His Home

Otto Schwage, 6 years old, 2510  
Flournoy street, was overcome by gas  
early last night in the bathroom of his  
home. The fumes escaped from a de-  
fective gas heater. Mrs. Schwage  
found her son unconscious. Dr. W. T.  
Warren, 529 South Western avenue,  
revived the boy.

FREED OF SPEEDING CHARGE.  
Morris Levy, doorman, 3302 Armitage  
avenue, charged with speeding, driving an auto-  
mobile while under the influence of liquor,  
and disorderly conduct, was discharged yes-  
terday by Judge John Steik in the Speeders'  
court.

## Every Woman Wants a Clear Smooth Complexion

A Skin With the Tint of Youth  
—Free From Pimples or  
Other Blemishes

Happy is the woman with a beauti-  
ful skin. There is no joy like that  
which comes from knowing that you  
look your best. When you meet peo-  
ple, the first thing they do is to look  
at your face. First impressions are  
lasting. If you have a smooth, velvety  
skin, free from blemishes and pimples,  
you need never fear the impression  
you make on all you meet, for a  
woman with a pretty complexion al-  
ways appears charming.

Some women are endowed by nature  
with a clear, smooth skin; others, not  
so fortunate can acquire it by the use  
of the popular Black and White  
Beauty Treatment, which consists of  
Ointment and Soap.

Those who suffer the embarrassment  
of a dark, sallow or muddy com-  
plexion, pimples, tan, sunburn, or  
other skin blemishes, just cleanse the  
skin with warm water and Black and  
White Soap; at bedtime apply Black  
and White Ointment according to di-  
rections given in each package. The  
next morning, wash the skin with  
Black and White Soap, and repeat the  
treatment for a few nights or until  
the desired results have been secured.  
It's safe, simple and as delightful to  
use as other cosmetics.

Both Black and White Ointment and  
Soap can be bought from any good  
drug store at 25c a package; the  
manufacturers will send it to you  
postpaid upon receipt of the price.  
Free sample and literature can be had  
by writing Black and White, Box 913,  
Memphis, Tenn.

## BLACK AND WHITE OINTMENT

Brightens the skin

## ELLA WHEELER WILCOX, AUTHOR AND POET, DIES

Wisconsin Spiritualist and  
War Relief Worker Was  
in 64th Year.

New Haven, Conn., Oct. 30.—Mrs.  
Ella Wheeler Wilcox, author and  
poet, died at her home, "The Bunka-  
low," in Branford today. Mrs. Wil-  
cox had been ill for some months, hav-  
ing had a nervous collapse while en-  
gaged in war work in England. Her  
death was not unexpected to those  
who shared the seclusion of her home.  
The exact nature of her final illness is  
not stated. She had been constantly  
under medical care for nine months.  
Her surviving relatives are a brother  
and a sister in the west.

Arrangements for the funeral have  
not been completed. The body will be  
sent to a funeral home in New Haven.  
After cremation Mrs. Wilcox's ashes  
will be placed in a niche in the granite  
ledge on which "The Bunkalow" stands.  
This was done with the ashes of Mr. Wilcox,  
who died three years ago.

WROTE FOR FORTY YEARS.  
Ella Wheeler Wilcox was probably  
the most prolific woman writer of verse  
this country has had. She was 64  
years old when she died, and she began  
her writing forty years ago, when she

was a 14 year old child, in Johnstown,  
Center, Wis., where she was born in  
1855. She was a graduate of the Uni-  
versity of Wisconsin.  
The first poem she sent out was ac-  
cepted. By the time she was 29, when  
she married Robert M. Wilcox, in  
1884, she had had four books of verse  
published, including "Maurine," a  
novel in verse, published by Jansen &  
McClurg, Chicago, and "Poems of Pas-  
sion," which has remained perhaps the  
best known of her books, brought out  
by Belford, Clarke & Co., after it was  
refused by her other publisher because  
of an alleged "immoral tone." Her  
last book, "The World and I," an au-  
tobiography, was published last year.  
She wrote thirty-one books in all. The  
first collection of her poems was called  
"Shells," and was published in Mil-  
waukee.

## Six Dollars for Early Verses.

Her first "paid" poem was sold to  
Frank Leslie's publishing house for  
\$6. From that time she had little trou-  
ble in making her living by writing.  
She once said that when she started:  
"A little girl of my own age went  
to a book store and copied off the ad-  
dresses of several magazines for me  
and I sent out poems to most of them,  
coolly requesting the editors to send  
me their papers as pay for the poems  
if they accepted them. The very first  
one I sent to responded favorably."

The very first writing of all which  
she did was a novel of sixteen pages,  
written when she was 8 years old, and  
which she always treasured with great  
care. From what is known of it, it  
must have been the flower-born-to-  
bloom-unseen prototype of "The Little  
Visitors," filled with human interest  
and unconscious satire. Perhaps it  
may yet see the light.

It was called "Minnie Tighthead"  
and was bound in blue paper and sewed  
together with strong, irregular stitches.  
Among her books are "Sweet Dan-  
ger," "Poems of Pleasure," "Poems  
of Power," "Men, Women, and Em-  
otions," "Poems of Sentiment," "New  
Thoughts," "Common Sense, and What  
Life Means to Me," "Poems of Progress  
and New Thought Poems," "The Art  
of Being Alive," "Poems of Problems,"  
"A Woman of the World," and others.  
A suggestion of her early views of  
life and the hereafter is contained in

these lines she wrote thirty or more  
years ago:  
This world is a vaporous jest, at best,  
Thrown off by the gods in laughter;  
But a sorry attempt at wit were it  
If nothing better came after.

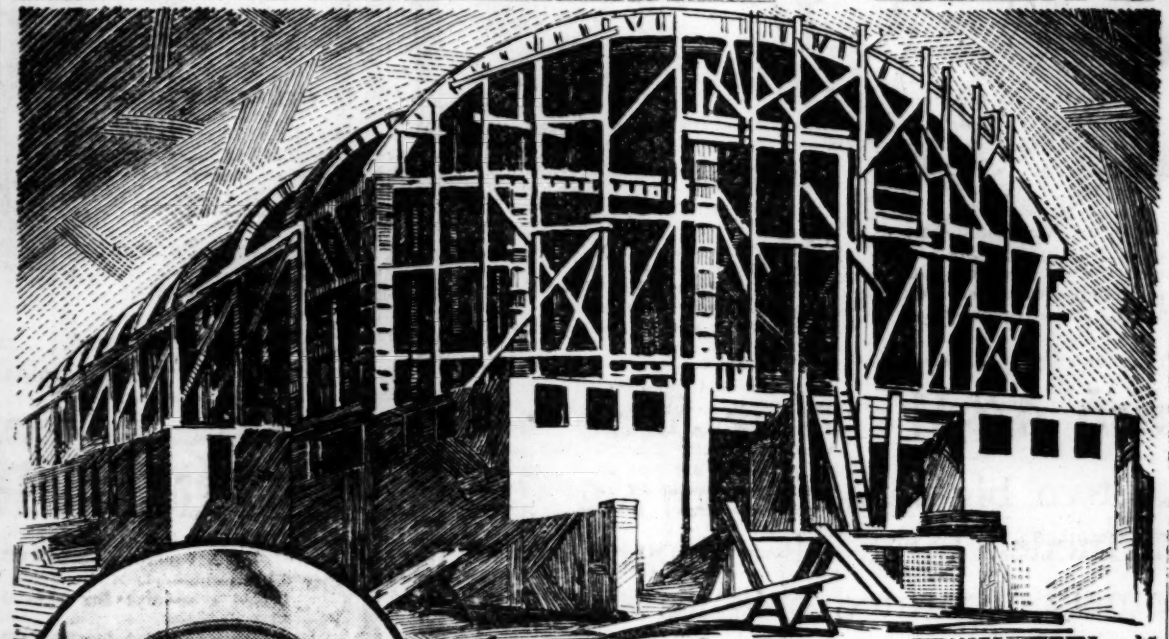

Lyknu actually re-  
moves the dirt—  
does not cover it up.

Restores the original  
beauty of the furni-  
ture. Leaves the sur-  
face absolutely dry.

CHICAGO HEWLETT INSTITUTE  
65-foot Arched Spans Reinforced  
with Calumet Rail Carbon Steel

## Calumet Steel and Lower Building Costs

TO practical men, nothing is more convincing than the experience of a practical man who stands high in his profession. Building contractors, engineers and owners will be interested in the experience of L. J. Mensch, the widely known authority on construction and engineering problems, with the use of rail carbon steel—material used exclusively in the rolling of Calumet Plain and Deformed Reinforcing Bars for Concrete:

Calumet Steel Company, 3  
Chicago, Ill.  
Gentlemen:  
The principal reason that I use rail carbon steel almost exclusively is that it has a factor of safety 50% higher than ordinary mild steel.  
I have used rail carbon steel in the construction of the concentrator of the building of the Utah Copper Company in which building 8,000 tons are vibrating 1,000 times a day without interruption since 1907.  
I have used your rail carbon steel among other buildings, in the Chicago Hewlett Institute, which is 100 feet wide, 230 feet long and 65 feet high, with arched spans of 65 feet.  
I cannot see any reason why engineers should object to the use of rail carbon bars as they hardly ever give any trouble in bending. In larger sizes, the bending requires some skill but if engineers would keep in mind that only very large radii should be used in bending, they would be just as enthusiastic users of rail carbon steel as I am.

Yours very truly,  
L. J. Mensch

Those who have used Calumet Reinforcing Steel appreciate the economy, safety, and uniform high quality of rail carbon steel as compared with ordinary mild steel. Those who have not used it will want to investigate it.  
Complete specification, with sizes and types of Calumet Rail Carbon Bars, will be cheerfully furnished on request.  
Consult our engineering department for any special information you may require.

## CHICAGO VOTERS PAY LITTLE NEED TO PARTY LINES

Result of Tuesday's Election Doubtful in Half Districts.

BY E. O. PHILLIPS.

Slashing of party lines and the election of the "best men" for constitutional convention delegates will feature Tuesday's election in about one-half of the nineteen senatorial districts in Cook county. In the rest of them the personnel of the convention delegation will be determined largely by the efforts of the Republican or Democratic organizations. That means that in the normally Republican districts the Republican nominees, as a rule, will be elected and in the Democratic districts the Democratic candidates will land as winners.

The Republicans usually elect a Republican senator and two Republican representatives in each of these districts: First, Third, Fifth, Sixth, Seventh, Eleventh, Thirteenth, Twentieth, Twenty-fifth, Twenty-sixth, Twenty-seventh, Twenty-eighth, Twenty-ninth, Thirtieth, Thirty-first, Thirty-second, Thirty-third, Thirty-fourth, Thirty-fifth, Thirty-sixth, Thirty-seventh, Thirty-eighth, Thirty-ninth, and Fortieth.

Summary of Conditions. Local conditions that exist because of factional disturbances and a desire to get as nearly as possible a nonpartisan basis as is possible in electing convention delegates, tend to upset the general rule in some of the Chicago districts. At this stage of the campaign, with the election to be held on Tuesday, summary of the situation in each of the districts is about as follows:

FIRST (south side). In this district the word has gone out in the First ward to vote for Levy Mayer, the sole Democratic nominee, and Walter H. Wilson, one of the Republican candidates. Col. Franklin A. Denison, late commander of the old 8th Illinois, is making his campaign as a Republican, chiefly in the Second ward precincts that are in the district. He is avowedly out to break the combination. The result is likely to be close between these three. John H. Kennedy is the Labor party candidate.

SECOND (west side). This is a Democratic district. The two Democratic nominees are Michael F. Sullivan, chief assistant state's attorney, and former State Senator Frank A. Hurley, who won the decision in a primary contest over Anthony D'Andrea. The Republican organization, led by County Chairman Homer K. Galpin, expects to elect John J. Gorman, through the usual Democratic factional split. F. W. Brudner is a second Republican nominee. The Socialists are Harry E. Greenwood and

Arthur E. Smith. The Labor party nominees are William J. Riordan and Bert Murphy.

THIRD (south side). This big Republican district has two Negro Republican nominees, Edward H. Morris and Rev. Archibald J. Carey, nominated without a fight. On the hope that either Matthew D. Hartigan or James A. Gorman can solidify the white vote, the Democrats claim a chance to elect one candidate. The Socialists have Joseph D. Barbert and Charles Halbeck, and William J. Martin is the Labor party nominee.

FOURTH (Stock Yards)—In this overwhelmingly Democratic district it looks as if John E. Traeger, former sheriff, and George P. Latchford, the two Democratic nominees, will win. Republicans wrote in the names of State Representative Emil O. Kowalski and William C. Smith, Otto Rhein and Max Wegener are candidates of the Labor party.

FIFTH (Hyde Park)—There is no chance of defeating Senator Morton D. Hull or Col. Abel Davis, the Republican nominees, although the Hearst interests are after Senator Hull's scalp. William J. Lindsay and William P. Casey are the Democratic candidates. The Socialists are Fred W. Hack and Barney Berlyn.

SIXTH (Evanston)—Election of the two Republicans is conceded. They are Rufus C. Davies of Evanston and former Judge George A. Dupuy of the Twenty-sixth ward. The Democratic nominees are Joseph E. Flanagan and Joseph H. Stanger. Victor Koehler and Christian Meier are the Socialist candidates, and Albert Stewart represents the Labor party.

SEVENTH (Country Towns)—The Republican nominees are expected to win without trouble, former State Representative Frederic R. De Young of Harvey and Amos C. Miller of Kenilworth.

EIGHTH (Southwest Side)—There is no contest in this district. Speaker David E. Shanahan, Republican, and Charles J. Michal, Democrat, are the only candidates on the ballot.

TALK OF COMBINATION. ELEVENTH (Englewood)—There are rumors of a combination in this district by political interests favorable to Michael K. Sheridan, Democratic member of the board of assessors, and former State Senator Percival G. Baldwin, Republican. The district normally is Republican. Mr. Baldwin, backed by the City Hall Republicans, and State Representative William H. Cruden, supported by the Deeneen-Vail faction, won the primary nominations. Mr. Sheridan and former Criminal Court Clerk Frank J. Walsh are the Democrats. Because of the suggested trouble, Mr. Cruden's friends are redoubing efforts in his behalf. The Socialists are Henry Gronier and B. O. Beese. The Labor party nominees are Benjamin F. Ferris and the Rev. R. Keene Ryan. The latter, a well known pastor, has made a campaign that tends to complicate the district's situation.

REPUBLICANS ARE FAVORED. THIRTEENTH (South Chicago)—The two Republicans seem to have the best of it. They are Douglas Sutherland, secretary of the Civic Federation of Chicago, and Oscar Wolf, member of the board of local improvements. The Democrats have some hope of putting over John J. Poulton, former legislator. Emory M. Shaw is the second Democrat. Harry H. Wilson and Joseph Gajski are the Socialists and

H. W. Raven and O. K. Enevans are the Labor party candidates.

FIFTEENTH (Southwest Side)—Republicans see some chance to elect Ernest Kunde, who is running on a personal liberty platform. The Democratic organization is strong for S. E. Pincus. Dennis A. Horan, allied with the anti-Sullivan Democratic faction, is a second Democratic candidate. Otto F. Ring is another Republican nominee. The Socialists are Edwin H. Wieman and William Lewin. Gustav A. Grosman represents the Labor party.

DEMOCRATS ARE CERTAIN. SEVENTEENTH (Southwest Side)—There is no doubt that the two Democrats will be elected. Thomas F. Frole and Michael Iarusti. The Republican candidates are Anthony Pincosi Jr. and Charles Heehler.

NINETEENTH (West Side)—Democratic managers claim as a sure thing the election of their two candidates. Martin J. O'Brien, head of the tax extension department in the county clerk's office, and Michael Rosenberg of the Thirty-fourth ward. The Republican candidates are William E. Burns and Harry A. Siegel. The Socialists are Mordecai Shulman and Henry E. Wickwire and the Labor party nominees are H. R. Krasnow.

TWENTY-FIRST (West Side)—Former County Judge Charles S. Cutting, one of the Republican nominees, seems to have an exceptionally good chance to be elected. Independent forces are working strongly for him. On the ticket with him is George F. Lohman, deputy city collector. Democratic hopes are centered on James F. Farley of the Fourteenth ward, attorney for City Treasurer Stuekart. John F. Hig-

gins is the second Democratic candidate. Indications point to the election of Cutting and Farley. Harry W. Harris and Thomas L. Slater are the Socialists and E. James and Ben F. Parker are the Labor party nominees.

SPLIT IS EXPECTED. TWENTY-THIRD (Austin-Oak Park)—The district is heavily Republican, but indications are that one Republican and one Democrat will win out, due largely to factional Republican politics in the territory. William Ganshow of the West park board, Republican nominee for city treasurer last spring, and Charles Woodward of Oak Park are the Republican nominees. Thomas D. Garry, closely aligned with the regular Democratic organization, and Richard P. Shay are the two Democrats. The result here is likely to be close. The Socialist candidates are James A. Meisinger and Knud Larsen.

TWENTY-FIFTH (northwest side). All of the Republican factions are together combined upon former Judge William McEwen and former Ald. M. A. Michaelson, floor leader of the mayor's forces while he was in the council. The Democrats are centering everything upon William E. Nichols, who has made an active campaign. The other Democrat is Michael Dominowski. The Socialists are Carl Strober and Karl M. F. Sandberg, and the Labor party candidates are W. Thomas Polston and Frank E. Link.

DEMOCRATS TO WIN. TWENTY-SEVENTH (west side). The two Democrats will be elected, Edward J. Corcoran and Ernest D. Potts. The Republicans are Joseph Parker and Frank Wengierek, and the Social-

ists are Ludwig Miller and Edward J. Redmond.

TWENTY-NINTH (north side).—This is the real fighting ground of Tuesday's election. The Republican nominees are Alexander H. Revell and Charles H. Hamill. The O'Malley Democratic organization is going the limit for Edmond L. Mulcahy and Edward Stenson. The chance for a "gentleman's agreement" in this territory, embracing the gold coast and the Lake Shore drive, expired with the last day for withdrawals. The district usually is Democratic, but Mr. Revell and Mr. Hamill have been making a spectacular finish and both expect to win if the independent vote that stays at home at most elections gets to the polls Tuesday. The Socialists are George Schmidt and H. R. Hart.

THIRTY-FIRST (Lake View).—Nothing has occurred that tends to prevent the election of the two Republican candidates, Col. William H. Beckman and Eugene H. Dupe, both of whom have the solidified organization support in the district. The Democratic nominees are William Cullen Burns and Donald L. Morrill. Robert Norberg and John Vogel are the Socialists. Robert Emmet Burke, who broke the regular state and was elected a delegate to the Democratic national convention at Baltimore, refusing to vote for the nomination of Wilson; is an independent candidate and claims that he will win.

CARPENTER FOUND DEAD IN HOME. Louis Massa, 60 years old, 1806 West Grand avenue, a carpenter, was found dead in the gas filled kitchen of his home yesterday. Massa, a widower, lived alone. It is believed by the police that he committed suicide.

Basement, North Rooms.

**PARTY LEADER PREDICT SWAY BY REPUBLICANS**

Nominees Say Their Mass Shows They Will Win.

Republican county central committee members, in session yesterday at the Hotel Sherman, took stock of the campaign that is expected to result in all signs pointing to a Republican victory Tuesday.

The two judicial nominees, J. Strickman for the Superior Court, and George Fred B. B. for the Circuit Court seat, were reported that they had complete canvasses of the city and county districts and that all necessary to assure their election by the Republican organization was the polls.

All Factions Present.

This committee indicated readiness to do, regardless of differences. County Chairman J. Galpin presided and all of the committeemen were present in person or by proxy.

The county committee determined for all of the bond issues the adoption of the nonpartisan law and the fifty ward act was said or done about the initiative and referendum question made by wards were that the Republican can win the constitutional convention elected without difficulty.

Normally Republican senators and that the Republican can win in other districts usually. The expressed sentiment "this is a Republican election" was a Republican election.

The Democratic county committee in conference at Hotel Sherman, precinct committeemen from the Ninth and Tenth districts, who were addressed by J. M. O'Connor and Francis H. H. H., the two Democratic nominees. The precinct committeemen of the Democratic campaign had a dinner for the two judges. This is the home of J. B. B.

## PARTY LEADERS PREDICT SWEEP BY REPUBLICANS

Nominees Say Their Can-  
didacy Shows They  
Will Win.

Republican county central committee members, in session yesterday at Hotel Sherman, took stock of the political campaign that is ending and predicted a Republican victory Tuesday.

The two judicial nominees, William H. Hays, chairman of the Republican committee, and George Fred Rush for circuit court seat, were present and reported that they had made a canvass of the city and county in their district and that all that is left to assure their election is the Republican organization to vote the polls.

All Factions Present.  
The committee indicated its intention to do, regardless of factional differences, County Chairman Homer Hays presided and all of the ward committeemen were present either in person or by proxy.

The county committee determined to hold all of the bond issues and for the election of the nonpartisan election board and the fifty ward act. Nothing was said or done about the Hearst initiative and referendum questions, made by wards were to the effect that the Republican candidates for constitutional convention will be elected without difficulty in the district Republican senatorial districts and that the Republicans will win in other districts usually Democratic. The expressed sentiment was "this is a Republican election."

Democrats Also Meet.  
The Democratic county committee met in conference at Hotel Sherman yesterday afternoon. The committee members from the Sixth and Eighth congressional districts, who were addressed by Judge M. O'Connor and Francis X. Sullivan, the two Democratic judicial nominees. The precinct committeemen from the Ninth and Tenth districts are to meet at 4 o'clock this afternoon, completing the lineup of the Democratic workers. Dennis J. Egan, in charge of the Democratic campaign, said that the party machinery is working smoothly and enthusiastically all over the city, without factional disturbance.

At Broadway Gardens, last night, the fourth ward Democratic organization had a dinner for the two judicial nominees. This is the home ward of Rush.

## G. O. P. EDITORS MEET NEXT WEEK TO BOOM LOWDEN

Five hundred Republican editors of Illinois are expected to participate in a meeting and dinner at Springfield next Friday night that is to be attended with large political significance, particularly with reference to the candidacy of Gov. Frank O. Lowden for the Republican nomination for president.

Gov. Lowden will be the guest of honor, and the announced speakers are Will H. Hays, chairman of the Republican national committee; United States Senator Lawrence Y. Sherman, United States Senator Medill McCormick, Congressman William A. Rodenberg, Judge Keneaw M. Landis, Mayor William Hale Thompson, national committeeman from Illinois, and Mrs. Fletcher Doherty, chairman of the Illinois Republican Women's executive committee.

The arrangements for the session are being made by the Republican Editorial Association of Illinois, of which Allen T. Spivey of East St. Louis is president, Michael F. Walsh of Harvard is secretary, and John H. Harrison of Danville is treasurer. The association will meet during the afternoon and the dinner will be given in the evening at the Leland hotel.

## REPORTS SHOW MORE HOSTILITY TO HEARST I. & R.

Farmers and Woman's  
Club Are Lined Up  
Against It.

Headquarters of the "Gateway Amendment league," the Hearst organization boosting the three so-called initiative and referendum questions on next Tuesday's ballots, issued statements yesterday claiming that a sweeping victory is about to be registered in the downstate senatorial districts for the propositions.

Reports reached Chicago, however, that were of quite different tenor. One was that the newspaper men of the state are almost solidly against the Hearst proposals and are urging that a heavy vote of repudiation be cast.

Farmers Against It.  
The organized farmers are urging the defeat of the questions; the Anti-Saloon league likewise.

Earlier publicity from the Hearst headquarters had indicated the expectation of active support from the po-

litical committees and from the Republican factional organizations. The Republican county committee, however, yesterday failed to take up the matter, and the Democratic county committee overlooked it. The city hall forces sent out their instructions without suggestion.

Women Against It.  
The Chicago Woman's club determined yesterday to recommend that its members vote "no" on the questions. Capt. Charles E. Merriam issued a statement urging all voters, particularly women, to vote for the three propositions.

Douglas Sutherland, candidate for delegate to the convention in the Thirtieth district, sent a statement to the Municipal Employees Society of Chicago refusing to stand for the Hearst I. and R. questions.

## KANKAKEE G. O. P. BACKS LOWDEN FOR PRESIDENT

Kankakee, Ill., Oct. 30.—At a meeting of the Kankakee Republican county central committee held here today and in which every township was represented, Gov. Frank O. Lowden was endorsed unanimously as candidate for president of the United States. Each committeeman promised to work for the nomination of Lowden.

## POLITICAL LIONS AND LAMBS JOIN FORCES FOR CITY

All Factions Prove One in Move to Improve Chicago.

BY EYE WITNESS.  
The wolf also shall dwell with the lamb, and the leopard shall lie down with the kid; and the calf and the young lion and the fawning together.

Something happened up at Charles H. Wacker's house on North State street Wednesday night that had not happened in this town for many a year—if ever.

Each of the living men who is or has been a mayor of Chicago, and representatives of each of the five Republican and Democratic factions who customarily are playing the part of cutting each other's political throats, sat down at Mr. Wacker's table at 8:30 o'clock.

At the end of five and a half hours they rose, all still speaking to one another; not only that, but promising as they shook hands at parting in the hall to work together until the polls close next Tuesday afternoon.

Subject Is Chicago.  
From 8:30 until midnight the political lions and their more or less docile attendant lambs had not talked politics but Chicago.

The problem of what they and their factions could do and would do to get out the vote for the first six propositions in next Tuesday's little ballot had been their topic.

In other words, they talked—and talked to some purpose—South Water street widening and double decking and the throwing of great traffic channels through this distressfully congested town by the extension of Ogden avenue from Union park to Lincoln park and by the widening of Ashland and Western avenues and Robey street.

This was the party: Mayor William Hale Thompson, Former Mayor Carter H. Harrison, Former Mayor Edward F. Dunne, President of the Board of Local Improvements Michael J. Faherty, Corporation Counsel Samuel A. Ettelson.

Congressman A. J. Sabath, David E. Shanahan, speaker of the lower house.

Michael F. Igoe, Democratic leader of the lower house, and Ald. Thomas O. Wallace of the Twenty-third ward.

Dennis J. Egan, chairman of the local Democratic organization committee, William L. O'Connell, former chairman of the board of public utilities, John C. Cannon, superintendent of Lincoln park.

Edward R. Litsinger, member of the board of review under Gov. Deneen. Politicians know better than the public possibly can what the coming together of these men in a mood not merely of amity but of constructive enthusiasm means.

It means that the Thompson faction and the Deneen-West faction and the Brundage faction of the Republican party and the Harrison-Dunne faction and the Sullivan faction of the Democratic party for once in the annals of a troubled world got together on a proposition that did not spell self-interest in large, shining letters.

Credit to Wacker.  
A historic aspect of the occasion is the fact that there probably is not a man in Chicago who could have got the bunch together, and kept the peace between them for half a night, except Charles Wacker, chairman of the Chicago Plan commission.

## H. L. WILLETT JR. WINS HARVARD HISTORY POST

Herbert L. Willett Jr., son of Prof. Willett of the University of Chicago, has been appointed assistant in history at Harvard, where he is studying for his master's degree. After being graduated from the University of Chicago in 1913, young Willett studied for a year in Paris and later was instructor at the Protestant college in Syria. He was active in dramatic work when attending the Midway institution and was a member of Delta Tau Delta fraternity.

HERBERT L. WILLETT JR.

## Girls' Road to Riches Proves Road to Court

Adelina Jablonski, 17 years old, 10041 South May street, and her 15 year old sister, Victoria, thought they had found the road to riches. Adelina was to represent herself as the owner of a charge account at a department store, Victoria was to do the purchasing and later return the goods and get a refund. They tried it at Carson, Pirie, Scott & Co.'s, then at Marshall Field's. They will face Judge Mary Bartelme in the juvenile court on Nov. 7.

## PLAN TO AROUSE ALL CHICAGO TO NEED OF ZONING

BY FRED PASLEY.

New York, Oct. 30.—(Special.)—Preliminary action toward a zoning commission for Chicago was taken today at the Pennsylvania hotel, when Aldermen and representatives of civic bodies met to discuss the proposed ordinance.

Ald. Joseph O. Kostner, chairman of the building and city hall committee, authority to represent them in the preliminary work.

David L. Goodwill of the Union League club is working for an extensive campaign. The whole zoning scheme will be explained to Chicagoans some time in November. Then photographs, taken in New York and St. Louis before and after adoption of a zoning law, will be shown. The campaign will cost about \$50,000, which will be donated by business men who back the zoning plan.

Organization of the wards, with a house to house canvass to learn public sentiment, was suggested by Ald. Anton J. Cermak. At the conclusion of

## IDENTIFIED FIRST WIFE AS HIS 2D

Leslie M. Barden, who told a story of his troubles to a Juvenile court officer Tuesday, has got himself into difficulty with his first wife as a result. He told of how his first wife got a divorce in January, 1917, and of how he had then married "Anna Pokrant." He wanted authority to keep the child that belongs to him and his second wife, because she had left him.

Yesterday, Mrs. Barden the first announced that her former husband had given the court her maiden name and had not given the name of his second wife. Through her attorney, Sidney Meyers, she announced that she took her maiden name after the divorce.

Mr. Barden did not go to the Court of Domestic Relations when advised to do so, if he wished to talk matters over with the second Mrs. Barden. What his motive was in giving the court his first wife's name has not been divulged. Miss Pokrant and Mr. Barden are musicians. He is employed by a south side theater.

## Aged Woman Succumbs to Harts After 10 Months

Injuries suffered last New Year's day when she fell in the kitchen of her home are supposed to have caused the death yesterday of Mrs. Mae Smith, 87 years old, 6025 Drexel avenue.

In The Tribune Every Day Beginning Next Monday, Nov. 3

## The First Big Spy Story of the Great War

How Germany and Mexico Planned to Invade the United States in 1918

In Thirty Daily Installments

Told by Special Permission of the U. S. Secret Service

# On Secret Service in Mexico

By Dr. Paul Bernardo Altendorf

Late "Agent A-1" in the Military Intelligence Dept., U. S. A.

Dr. Altendorf has a marvelous tale to tell. He lays bare the full details of a series of gigantic plots against the United States—hatched and carried out with true Prussian efficiency and extravagance right on our border, with THE PRESIDENT OF MEXICO HAND-IN-GLOVE WITH THE GERMAN AGENTS.

Not only did Dr. Altendorf frustrate the proposed invasion of Texas in the summer of 1918 by a German-Mexican army of 45,000 men, but he lured to arrest a German spy, author of the Black Tom explosion; placed in the hands of our government the Imperial German code; warned us of the submarine raid on the Atlantic coast in 1918; caused the capture of the German who plotted the assassination of former Ambassador Gerard; nipped a host of conspiracies in the bud, and frustrated the whole system of Teuton scheming below the Rio Grande.

This story, starting with Dr. Altendorf's determination to assist the United States against the Germans, tells of experiences which, for adventure, suspense and interest, are more thrilling and fascinating than any tale of fiction. Prussianized Mexico must always be a menace to the United States, and as a document suited to a forming of right public opinion on the Mexican question—which is our greatest national problem at the present time—Dr. Altendorf's narrative is of the first importance.

Dr. Altendorf says: "Within six months after the United States ratifies the treaty of peace, Germany will have absolute economic, political and military control of Latin America, with headquarters in Mexico."

## "On Secret Service in Mexico" Is a Revelation and a Warning

DR. PAUL BERNARDO ALTENDORF in the uniform of a German captain, in which capacity he pretended to help arrange a German-Mexican raid into the United States.

Dr. Altendorf chose to do his bit against Germany, serving at his own expense as a volunteer secret agent in Mexico, because he hated Germany as all Poles do, and because he liked President Wilson's attitude toward Poland. He ingratiated himself with the head of the German secret service in America, then operating from Mexico, and was so phenomenally successful that within three months he was invited to enter the American service regularly, as a sworn secret agent, though he was not actually sworn in until December 13, 1917, seven weeks later. Officers of the service said that Dr. Altendorf accomplished far more in twenty months than all other American agents in Mexico combined throughout the whole course of the world-war.

To Paper Industries: I am again turning solid paper into thin air, as one sheet is taken from the collator and the rest is left. Orders from factories which manufacture solid papers must be submitted at once, because the scarcity of raw materials limits the number of orders I can accept for these machines. Note also that I have improved these folding machines by enlarging them, and that I can deliver them with a printing machine attachment the same as I have been doing for years for the German Postal Co. for telegrams. Because of the difference in money exchange, their purchase is most attractive.

Representatives who can sell my various printing machines, which are especially valuable for State and Post Office printing, are desired, and references are required as to ability and past results. Besides, I supply machines for printing railroad tickets, wrapping paper, business forms of all kinds, and various machines for the machine making profitable lines of paper, which are for printing the second 2-4022, Berlin, Germany.

## Sherwin-Williams Make Soaps

It is not strange that Sherwin-Williams, known generally as Paint and Varnish manufacturers, should also manufacture soap. It is logical. Many of the materials entering into the composition of our other products are also used in soap making. Therefore when you buy soap bearing the trade-mark "Cover the Earth" you know that you are buying the same high quality and purity which this trade-mark stands for wherever it appears.

## S-W Mechanics' Hand Soap

Cleans Off the Skin—Cleans Out the Pores

Is a pumice paste soap of the finest possible quality. It removes grease, grime, paint, ink and stains with speed and unequaled thoroughness. It is the finest and rarest hand soap on earth. Only the best grade of Italian pumice is used, ground to gritless smoothness by powerful machinery. It is made of coconut oil, glycerine and alcohol. It lathers profusely and feels as smooth as the finest toilet soap. It not only cleans off the skin, but cleans out the pores. It positively does not irritate, roughen or cut the cuticle, and is very healing in its effect.

## S-W AUTO SOAP

Is made by the people who make the finest Auto Finishes. It is a pure linseed oil soap, made not only to clean, but especially to restore and preserve. It brings out the fine surface polish brilliantly, gives vivid life to the color, and a rich depth of lustre unobtainable with any other cleanser. It makes your car finish better able to stand long wear and severe exposure.

able to stand long wear and severe exposure.

## S-W FLAXOAP

is the highest type Linseed Oil Soap possible to make, contains nothing but pure Linseed Oil as a soap base. Use it to make a soda to scrub your woodwork, floors, rugs, your finest cut glass or furniture. Simply scrub the surface with soapy Flaxoap water, allow it to dry, then polish. No furniture polish is needed.

## S-W PHENO LIQUID SOAP

Disinfects while it cleanses. Made of pure vegetable oils, no carbolic acid, no free alkali, or other harmful ingredients. It is a powerful germ killer, and has great healing properties. Rinses off without odor, goes a long way, and is very economical in liquid soap dispensers.

## S-W LIQUID FLAXOAP

Linseed Oil is universally valued for its healing and medicinal qualities—Flaxoap is a Liquid Linseed Oil Soap.

## S-W KOKONOL

Coconut Oil Soaps are considered the most soothing to the skin, and where this type of Soap is desired, specify S-W KOKONOL.

We also make a complete line of disinfectants for every use in and around public buildings, office buildings, factories, homes and farms.

NEW ROMANCE FAILS TO MOTHER'S L

Ringling Kin and S Spouse, by Agree Adopt Her So

BY LEOLA ALLAN The grandchild of Charles Ringling, who was adopted by his own new husband, Louis Ringling, manager of the Dashi company.

The adoption took place after the mother was married, according to an affidavit filed in court. The couple had made. That he and son might not suffer from interest on the part of a st Mrs. Lancaster desired her hand to become the boy's legal mother. Victor P. Arnold of the court made it so.

The boy is Charles Ringling, father, Clifton A. Parks, Pittsburgh in December, 1919. said's name now is Charles Lancaster and he is in Florida. Parents on their honeymoon. The couple took place Sept. 29 and 30, 1919.

Episode Impresses Judge. "It was delightful," said Judge, "to see mother love her new romance, in this instance, to make the mother forget her moment. Mr. Lancaster was interested as his wife. "The event really made me brighter for me. I have cases where people settle for and make money agreements marriage, and wish to give their own away when they marry, these people doing this fine, created any confidence in human nature."

The petition states the mother independent means and can support her son in luxury. His grand Charles Ringling, lives at 1300 avenue, Evanston.

CHILDREN STOLEN, CH

Mrs. Isolina Kraus, a Spanish woman attending Northwestern university, came to the social service yesterday to tell Mrs. J. Lawrence that her former husband stolen her children. Their names Nancy Kraus, had sent the little ones to their father in Denver, she said. "I have gone to Judge Barrett the master," said Mrs. Lawrence. He has said the aunt must produce the children in his court or explain the cannot do so.

"Mrs. Kraus tells me her husband wishes her to be remarried, former husband, whom she divorced ago. Mrs. Kraus says

The successful revival of the old

which worked so successfully for

in its game with Iowa, has led

players and close followers of

to believe that more of the

plays of the old game should

be employed instead of forward pass

plays, which in the main are the

defense for themselves.

Before the forward pass was inaugurated

and the player with the ball

would be pushed and pulled, the tackle

around play was one of the most

valuable ground gaining formations in

the category of eleven which had

been used. Hardly a season passed

without the scores were not made

by means of this play.

Coaches Overlook Tackles.

Since the forward pass and ten yard

rule were first used in 1908, the tack-

le has been overlooked by most

coaches. They have apparently lost

touch of the ground gaining ability

of men who today must stand the

test of the attack and be strong on

defense.

Western conference football teams

in fact every eleven of note in the

country is fortified with at least one

tackle. These players are above

average, being fast and shifty and

shoot sure hands of the line.

Some are faster than the ends

and have been shown in several games

the tackle beat the wingmen

on the field under punt.

Chance to Carry Ball.

The rules state that a lineman can

carry the ball providing he stands at

the five yard back of the scrimmage

and another of his side takes his

place or occupies another place so

that there will be seven players on

the line. The tackle when called

on would not necessarily have to

carry the ball, as there are a number

of variations to such a play, but he

would be used most of the time.

In Higgins Chicago has one of the

best players who ever wore a Ma-

## At Football Camps

WISCONSIN. MADISON, Wis., Oct. 30.—[Special.]—Another twenty-four hours of rain spread gloom over the campus today, but Wisconsin fans are still hoping and praying that the weather will clear in time to assure a dry field for Saturday's game against Minnesota. The Gophers have it on Richards' team in weight, and a muddy field will count heavily in their favor, slowing up the lighter Badger backs and lessening the Badgers' chances of resorting to a forward passing game. The inclement weather played havoc with the final open practice which had been announced to the student body; the variety's workout being limited to a light signal drill, while the seconds and fresh battled against each other with Minnesota formations.

MINNESOTA. Minneapolis, Minn., Oct. 30.—[Special.]—The last heavy practice for the Gophers before the Wisconsin game was cut short by a heavy rain. Williams gave his athletes a light signal drill in the morning, and then the squad, thirty-five strong, hopped a train for Milwaukee, where the team will stop tomorrow before going to Madison Saturday morning. The Gophers are in a little better shape than they have been at any time during the season. Walter Haertel and Joe Kennedy are ready to take their old places in the backfield, but Jack Phillips probably will not start at halfback. He has been bothered by an old injury all season. Red Jackson surprised everybody by getting out into a uniform and running through signals with the variety without much trace of his injury. Red is not the same man he was a week ago, although he may stand up for a greater part of the Illinois game.

MICHIGAN. Ann Arbor, Mich., Oct. 30.—[Special.]—Coach Yost is not at all satisfied with the way his regulars are performing. Tonight after a line scrimmage with the all-stars, which the regulars used Northwestern offensive tactics the variety string was put through a long signal practice with the ghost ball. Despite the fact that the variety line is strengthening the first year men were able to gain on the regulars almost at will. What Yost said to the regulars after the scrimmage was exceedingly warm. Judging from the expressions on the faces of the players, it is known that Michigan's mentor is considerably worried over the forthcoming game. Tonight Dunn and Wilson were used at end and Louche was filling Wilson's old place at tackle and may start the game at that position. Louche is a promising player and does not improve sufficient to admit of his starting against Northwestern. Hammels is out of the game and will probably not recover in time for the Chicago game. Peach may be able to start. To deepen the agony, Fortunate, big guard, fractured his arm in the play tonight and this may develop into something serious enough to keep him out of the Northwestern fray.

## Mike Kelly of Saints to Pilot Seattle Club

San Francisco, Cal., Oct. 30.—Tentative arrangements for Mike Kelly, manager of the St. Paul team, to assume a like position with the Seattle club of the Coast league next year have been made. It was announced today by William R. Klepper, vice president of the Seattle club. Klepper and Kelly departed for Seattle, where final arrangements will be made.

## LIGHTNING TO MEET MONARCHS

The Lightning will clash with the Monarchs from Austin Sunday at Graceland park, home of the Lightning.

## Her Team Used Formations.

Last year Joe Paupa, who coached a Municipal Pier eleven, used Bentz, the tackle, on the tackle around formations. The big fellow, weighing 250 pounds, always made ground and was one of the big factors in the final game with Camp Grant at the Sox ball park.

The tackle back and around play used a great deal in the east, especially at Colgate and Pittsburgh. Captain of Colgate is an All-American tackle and is looked upon as one of the best ground gainers on the team. He is used to advance the ball on the tackle around play or tackle formation, and drives with his back power he generally reels off five or six yards at a clip. Wooster, another tackle, also is used to good advantage on the same play.

Herman Pitt's Ball Carrier. Herman is Pitt's best tackle in carrying the ball. He is pulled five yards back on most formations with an unbroken line. He is usually sent on the strong side, but occasionally drives through center. He is using his tackle, Sedwick, to advance the line on both styles of play, while hard-driving eleven in the east which boasts two or two tackles does not use the

## COACH STAGG CURES OVERCONFIDENCE OF TEAM AGAINST ILLINI

BY MAROON. By the slow process of continual driving and fierce verbal onslaughts Coach Stagg is ridding the University of Chicago team of the overconfidence that put the players in their midweek slump. Another long scrimmage with the freshmen, who held the ball nearly three hours demonstrating Illinois plays, was yesterday's program, followed by an hour of signal drill under the arc lights.

Coach Stagg has not said so, but it looks as though he were fairly well pleased with the offense. It is similar, he claims, to the Maroon defense still weak against the "flea flicker" passes and "whop back" formations that Illinois is expected to spring.

Red Jackson in Drill. Most of the day was spent on the tackle-and ends, for it is those men who must bear the brunt of the Zuppke attack. Red Jackson surprised everybody by getting out into a uniform and running through signals with the variety without much trace of his injury. Red is not the same man he was a week ago, although he may stand up for a greater part of the Illinois game.

## I. C. to Run Two Specials to Champaign Saturday

The Illinois Central railroad will run two special trains to Champaign for the Illinois-Chicago game Saturday. The first, the team special, on which the Maroons will travel, will leave Chicago at 5 a. m. Saturday, arriving at 11:15 a. m., and the second at 9:10 a. m., arriving at Champaign 12:35 p. m. Both trains will have a lunch car and the team will have a dinner. The specials will return Saturday evening at 5:30 p. m. and 8:45 p. m.

## Extra coaches will be attached to the trains leaving for Champaign this evening at 4:30 and at 6:15 and on Saturday morning at 8:45 o'clock.

## IN THE WAKE OF THE NEWS by JACK LAIT

### HELL-O-E'EN.

HALLOWE'EN is the holiday of pranks. This year Uncle Sammie's kids have been more than ordinarily mischievous. For instance: The cellar was busted into and the bottled laughter of the sleep-eyed maidens of Milwaukee and Peoria was sigged into the sewer.

The next legislation will provide for the burning of Omar Khayyam's obsolete drivel at the stake as a war emergency measure.

MAY I NOT SUGGEST THAT—We all sing "Broken October" in hollow and ghostly voices!

Let's save up some Pollyanna thoughts for Thanksgiving day. Only 64 more days before Christmas. Do your hoping early.

Oh, what is so rare as a drink in town, Now if ever come arid days; The lady tries the bar for a hoist of hooch; And when he picks himself up he's all covered with mud.

Speaking of mud suggests the present weather, which reminds: Ernest Truax is stopping over locally to complete a movie. There is one outdoor scene to be taken. The director, told him he could finish it in one sunny afternoon. Truax at once leaped an apartment. It isn't bad enough to be refused a drink everywhere; but have you noticed that the barkeepers who were bittely cheating a few days ago got indignant when you wink to 'em now?

LOGAN SQUARES PLAY CARDINALS. The Logan Square A. C. team, which is making a strong bid for the state heavyweight football championship, will meet the Racine Cardinals Sunday at Logan Square park. The Australian pursuit race, postponed from last Sunday, will be run off before the game.

## PURPLE ELEVEN OFF FOR MICHIGAN GAME; RELIES ON NEW PUNCH

BY EVAN STONE.

After an hour and a half of pepful signal drill of the first and second string teams, Coach Bachman dismissed his Purple pupils yesterday afternoon to go home and pack their traveling bags. The entire squad, coaches, and trainers left at 12:35 this morning for Jackson, Mich., where they will drill some more, preparatory to stepping over to Ann Arbor Saturday noon.

### Back Field Is Reinforced.

A stronger back field will open against the Wolverines than has represented Northwestern in any fray this season. Capt. Bob Koehler at full back, Bill Brightmire calling signals at quarter, and Gog Ellingwood at right half, were considered among All-western choices in 1918. Lane, the left half back, a newcomer in the varsity lineup, is a short but sturdy grabber, and exhibited his worth in the Maroon game.

### Still Betting O'Flaherty.

"Never-Lose-a-Bet" O'Flaherty, who has cleared over a \$1,000 on the last two Purple defeats, will go along with the bunch. "O" is following his old time practice of taking any bets that are laid on the Evanstonians. By last night he had covered a multitude of student wagers.

## ROTHSCHILD'S BRIGAND WINS OWNER FORTUNE

LONDON, Oct. 30.—James De Rothschild, owner of Brigand, yesterday's winner of the Cambridge City stakes, is credited with having won a fortune by his victory. The Daily Express says he is reported to have won \$2,000 in bets on the previous day, and this he laid out in backing Brigand yesterday. The betting against Brigand opened at 40 to 1. If Rothschild obtained 30 to 1 and invested \$2,000 he would have won \$240,000.

### JIMMY SMITH TO BOWL HERE.

Jimmy Smith of New York will roll two special matches at the Randolph alley Sunday. In the afternoon at 3 o'clock he will meet Chuck Collier and at 8 o'clock he will roll Tony Kartick.

### Backfield Shifts Also Suggested.

Provided Carney is moved from the backfield to end, Zuppke will start either Walquist or Sternman at one half back and Fletcher at the other.

### Lineup Is Undecided, but Every Player Ready for Stiff Battle.

Urbana, Ill., Oct. 30.—[Special.]—When Bob Zuppke called it a day on Illinois field the Illini completed the hardest week's training since the little coach has been at the helm here. Today the Illini worked on a slippery field, but the regular gridiron has been kept inviolate and is in good condition.

To escape the jam of homecomers tomorrow, the squad will find a refuge at the Champaign Country club. Only light signal drill will be the schedule.

Lineup Is Undecided.

Zuppke tonight professed to be undecided as to several positions. Letch scrimmaged at guard for the first time since the Purdue game, while Olander also played briefly. Dutch Sternman was another crippler who participated after a long layoff.

A last minute shift is likely to be that of Carney to left end, supplanting Reichle, and a possibility that Smith will replace Mohr at the other extremity. Otis Petty is likely to play right tackle instead of Olander. Clarence Applegran is billed to play a guard.

Backfield Shifts Also Suggested.

Provided Carney is moved from the backfield to end, Zuppke will start either Walquist or Sternman at one half back and Fletcher at the other.

## PRaises Penned FOR PROFIT ONLY, EDITOR ADMITS

### Trade Papers Fatten on Vanity of Others, He Tells Landis.

Judge Landis, probing deeper into the editorial mysteries of two Chicago trade journals as a side issue in the trial of Pan Motor company officials, learned yesterday that the vanity of some business concerns feeds the hungry word painter who prides commercial enterprises at subscription rates.

Following disclosures of how the "Banker, Merchant, and Manufacturer" and "The Banker Journal" had published glowing accounts of the success of the Pan Motor scheme after 8. C. Pandolfi, its head, had agreed to purchase 2,500 copies of the issue carrying the story, Hugh S. Stewart of 6116 Rhodes avenue, managing editor of "The Banker," was called to the stand.

Fatten on Others' Vanity.

"Yes," he admitted, "advertisements of reliable banks and the like did appear in the journal without charge, in order to give the magazine an influential appearance."

The journal had about fifty regular subscribers and obtained most of its income through the purchase, by recipients of favorable notice, of large numbers of the issues in which they were mentioned.

"Men in many branches of the trade publication game," he said, "depend upon the vanity of those they write about."

"Is that the only way, vanity in this sense can be played upon?" he was asked.

"Well, sometimes goat getters are right," he added. "The trade paper agents go to firms about which the journal has obtained information embodied in an article and propose that the firm subscribe to a number of magazines on condition the article is run. As a rule, if no contract for copies is offered the article is not published."

"The jury is excused," broke in Judge Landis. "Now tell me some more about this so-called financial journal," he demanded of the witness.

Sixty Dollars for a Masterpiece.

Stewart declared the Great Lakes Trust company had been among the business houses given attention in a "Banker" article, which, however, was published, he declared, against the wishes of H. H. Merrick, president of the Chicago Association of Commerce and other officers of the company.

"F. J. Seymour, writer of a magazine article which described the Pan sample as 'a royal on wheels' and 'queen of the highway, outshining beautiful woman and well dressed society leaders,' was recalled while the jury listened to his 'dramatic masterpiece.'"

"How much were you paid for writing this remarkable article?" demanded of the judge.

"Sixty dollars," said the witness proudly.

Ambush Traps Defense.

Attorneys for the defense found an ambush when they demanded the prosecution turn over a letter which had been mentioned, but not read, to show Pandolfi had conducted his mail operations in Chicago through the medium of a postoffice box. The letter was written by officials of the Alibiquest, N. M. National bank in reply to a postoffice request for reference regarding the promoter. Attorney Peaks demanded it be turned over. After a conference the Pan attorneys handed it back quietly, but Attorney Epstein asked the court's permission to read it.

"We do not care to recommend Mr. Pandolfi," the contested letter said.

Paper Turns Up Ties.

Recalled for further questioning, Editor Stewart declared he quit publishing his paper when postoffice inspectors called upon him yesterday and told him he was violating the postal laws. The article about the Great Lakes Trust company, he said, did not result in the sale of magazines, but was published to give the paper an appearance of legitimacy and to add prestige.

## DEAN ROBBED, TAKES LONG WALK SEIZED, FREED

An aged man wearing a Prince Albert suit, a high flat derby and deerskin shoes walked with dignity into the store of A. W. Smith, 1561 Sherman avenue, Evanston, last night, and announced he had been robbed in Milwaukee. A policeman was summoned and, taking an average policeman, took the complainant into custody.

"I cannot understand this treatment," the man told Chief Charles Leggett. "I am W. H. Terry, sir, and I am 19 years old. Until five years ago when I was pensioned off I was dean of the school of agriculture at the University of Minnesota. I was on my way to visit my son who is sick in Benning Harbor, when, in passing through Milwaukee, I was robbed of \$165, all I had. I walked here from Milwaukee, sir. That explains those holes in my shoes."

Chief Leggett apologized and ordered Mr. Terry released.

### Massachusetts Woman Socialist Is Arrested

Lowell, Mass., Oct. 30.—Mrs. Marion E. Sprague of this city, nominee for lieutenant governor on the Socialist ticket, was arrested by federal officers tonight on a charge of having made false government. The warrant for her arrest came from the office of the attorney general at Washington.

## BEAUTY AMID BLOOMS LEADS 74 AND 35 TO LOVE ROMANCE

It happened in the flower booth at the state fair at Minneapolis in September. She was admiring a large bunch of chrysanthemums. So was he. Flowers bring memories. Their eyes met and both smiled.

She was Mrs. Lulu Armbrust, 35, a widow, living at 318 South Kenilworth avenue, Oak Park, and he was Capt. Edwin Barrett, 74, years old, a veteran of the Spanish-American war, a retired newspaper man and a wealthy bride. "Seventy-four years haven't impaired my sight a bit, as you can see for yourself,"

## 42,000 WESTERN UNION MEN GET \$35 BONUS TODAY

### \$22.50 Bonus and 15% Raises Due at End of Year.

Forty-two thousand employees of the Western Union Telegraph company, with an average wage of \$114 per month, are due to receive an average bonus of approximately \$35 each today. This bonus amounts to 10 per cent of their wages for the three months beginning July, 1919.

On Dec. 31, these same employees will receive an average bonus of \$22.50, and on Jan. 1 will receive a direct increase in wages of 15 per cent, amounting to about \$5,500,000 annually.

Of these 42,000, nearly 8,000 men are on the payroll of the Lake division, with headquarters in Chicago.

### \$120,000 to Traffic Men.

"In our traffic department alone about \$120,000 will be distributed," said J. J. Welch, divisional traffic superintendent, yesterday. "We have 4,620 men employed in the traffic department. On Dec. 31 we will give these men another bonus amounting to about \$65,000, and on Jan. 1 all those who have been in the service of the company for six months will receive an increase of 15 per cent. Newer employees will get 10 per cent."

### Raise from \$75 to \$184.

"In some departments we are paying more now as the initial or minimum wage than the maximum was in 1914," he continued. "Take Morse operators, for instance; they have been raised from approximately \$75 until now their maximum is \$184 per month, with a further increase coming the first of the year. Their average raise amounts to 64 per cent. Automatic operators have been given increases amounting to 108 per cent, and clerks were raised from 125 per cent, in some cases, 162 per cent. The general average increase has been over 70 per cent."

"In 1914, too, the average business of the company was conducted on a nine hour basis or at least over 70 per cent of it. Now all company employees work on an eight hour basis."

## LIGHTS FLICKER, BUT NO LICKER ON "GAY WHITE WAY"

New York, Oct. 30.—The reign of prohibition was in full swing over New York's "gay white way" tonight, and although the lights shone with their accustomed brightness and there was no diminution in the size of the crowds in the street, upper Broadway's cabarets and cafes presented a deserted appearance.

The validity of the wartime prohibition enforcement law was attacked today in a suit brought on behalf of Jacob Ruppert, to restrain the government from carrying out the provisions of the Volstead act. If the injunction sought is granted, the brewers will resume the manufacture of beer containing 2.75 per cent alcohol.

## CARS TO RUN ON MAYOR'S PLAN IN 18 MONTHS, HOPE

### Lines to Be Condemned on City's Behalf, Say Leaders at Hall.

"Mayor Thompson's plan for trustee operation of the street car lines on a 5 cent fare basis can be put into operation within eighteen months."

This, in substance, was the assertion yesterday of both Corporation Counsel Ettelson and Chester E. Cleveland, the mayor's special advisor in traction matters.

Though several large "ifs," such as the necessity for state legislation to create a local transportation district and a referendum vote by the people, stand in the way of the plan, a year and a half will see all the difficulties overcome, in the belief of the mayor's friends.

### Council O. K. Assured.

Approval by the city council of the mayor's request for \$250,000 to prepare plans is regarded as a foregone conclusion now that the local transportation committee's O. K. has been given. The committee was considered the biggest stumbling block in the path of the plan.

"The victory is all the greater because the mayor gained it in the house of his enemies, and the rest of the battle will be easy," said one of the mayor's advisors.

Condemnation proceedings are proposed by the mayor to get possession of the surface lines.

"The mayor's plan will be in operation long before Mayor Thompson's present term ends. Mark my words," said Mr. Ettelson.

### Aldermen Favor Plan.

About half the members of the city council are out of the city just now, but those who discussed the plan around the committee rooms yesterday declared their intention of voting with the mayor.

Several aldermen, including Lippe and Captain, declared they were not clear on how the city will get possession of the lines before 1927, and ascertained if the mayor's commission should itself be unable to make recommendations based on a 5 cent fare it should be permitted to bring in a 6 cent plan.

## TWO CAPTAINS UNDER FIRE GET THEIR FURLLOUGHS

Following a meeting of his police captains yesterday Chief Garrity announced that Capt. Joseph Mullin of the Cottage Grove station and Capt. James Madden, commander of the Englewood district, will go on their furloughs at once. Capt. Coffin has admitted that both these districts are now under scrutiny by the commission with a view to charges against the two officers. The order giving the two captains their furloughs at once is to facilitate the work of Capt. Coffin's investigators, it is said.

Patrolman Frank Freeman, one of the policemen accused with Capt. Thomas F. Cronin of failure to suppress vice in the Warren avenue police district, will be granted no immunity by the city civil service commission.

Nov. 7 was the date fixed yesterday for the trial of Freeman and four other Warren avenue policemen. Capt. Cronin will be placed on trial next Monday.

## Butchers to Vote Tuesday on Proposal to Strike

Organized butchers will hold a meeting next Tuesday night at Hodacarr's hall at which a vote will be taken on the proposition of striking against master butchers who refuse to sign a new wage demand made by the butchers, according to Guy O'Neal, secretary of Local 546. The butchers now get \$30 a week and are demanding \$40.

## Site Approved for Proposed Juvenile Detention Home

The committee appointed by the county board of commissioners to locate a site for the proposed juvenile detention home yesterday approved the plot of land on Franklin boulevard near Homan avenue.

## SOMEBODY IS ALWAYS TAKING THE JOY OUT OF LIFE

## MRS. CHALMERS FACES SUIT ON DAY OF BIG BALL

### Woman Asks \$50,000 for Injuries in Col- lapse of Porch.

Scores of women, members of Poca-hontas-council, which is the women's auxiliary of the Noble Order of Red Men, met last night at the home of Mrs. Kathryn Rutherford, 3636 South Michigan avenue, and during a "bunko" party in her honor told her they were "for her tooth and nail" in her \$50,000 personal injury suit against Mrs. Joan (W. J.) Chalmers of 1100 Lake Shore drive.

The lawsuit is one of tenant against landlady. Mrs. Chalmers owns the flat building in which Mrs. Rutherford, now on crutches, makes her home.

Mrs. Chalmers is a sister of William A. Pinkerton, head of the detective agency, and her friends have named her as the successor of the late Mrs. Potter Palmer in the leadership of the Chicago society. It was Mrs. Palmer who directed the great charity balls of yesterday and on Nov. 14 Mrs. Chalmers will preside over a charity ball at the First infantry armory.

"I cannot help it if the County court machinery places my suit against Mrs. Chalmers on trial on the day she expects to be so busy with the ball," said Mrs. Rutherford yesterday.

Then she told how an alleged faulty back porch of Mrs. Chalmers' flat building gave way on Aug. 8, causing Mrs. Rutherford to fall into a basement, sustaining a shattered left arm, a broken hand, a concussion, a severe pelvic injury, a broken hip, and a damaged foot, in addition to internal hurts and mental shock. She was bedridden for months as a result, she said.

"It will be shown in court that there was no contributory negligence on my part, and if Mrs. Chalmers has to pass an afternoon in court on the day of the charity ball, that is not my fault either."

## Boy Target of New Air Rifle; Shooter Seized

Within two hours after a new air rifle had reached the home of John Ellman, 14, 1637 Washburne avenue, the youthful marksman seriously wounded Sidney Hendler, 7 years old, 1641 Washburne avenue.

## BEG YOUR PARDON

O. Metzinger writes that the death of Clara Schleucher, wife of Chester Schleucher of 1008 North Lockwood avenue, was accidental, by verdict of the coroner's jury, instead of suicide, as published in THIS TRIBUNE of Wednesday.

On Oct. 5 there was printed in the rotogravure section of THE SUNDAY TRIBUNE a photograph of a bumper car, which was identified in the caption as having been grown in Illinois. This information was furnished by the photographer from whom the picture was bought. Mr. W. M. Baldwin of Water-ville, Mich., writes to say that the corn was grown in Waterville township, Berrien county, Michigan, about one mile from Pawpaw lake.

## NATIONAL PHONE CONCERN BEHIND RATE HEARING

Evidence that the American Telephone and Telegraph company is far more deeply interested in the rate fixing hearing before the public utilities commission than the Chicago Telephone company, whose officers signed the petition for an order approving as permanent the war rates fixed by the government, was offered yesterday.

Cross examination of the company's witnesses yesterday placed the American Telephone and Telegraph company's return on its investment in the Chicago company's stock at 10.75 per cent. It was also shown the parent concern is heavily interested in the Western Electric company, which manufactures much of the Chicago Telephone company's equipment.

"The real question before the public utilities commission is how much should the American Telephone and Telegraph company get on its investment and not how much should the local company receive," declared Special Assistant Corporation Counsel Cleveland at the close of yesterday's hearing.

## Jury Finds No Bill in Case Against Mary Maclane

The October grand jury yesterday returned a no bill in favor of Mary Maclane, author and motion picture actress. She was charged by Mrs. Ella Ripley, modiste, with larceny through failure to pay for gowns valued at \$1,000.

## GRAND JURY ASKS STRICTER LAW ON MOTOR DRIVING

### Favors Rigid License Plan to Reduce Accidents.

Concerned for the public welfare over the large number of deaths from careless automobile driving, the October grand jury yesterday in its final report urged legislation to control those who own and drive cars.

"We are impressed," the report states, "with the large number of cases coming before the grand jury in which automobiles figure either as an instrument of death or as stolen property, and we recommend:

"First—That a law be enacted requiring every person who drives a power-propelled car of any kind to hold a license to so drive and that licenses be issued only after the applicant has successfully passed a rigid examination as to his or her fitness to possess such license and providing for severe punishment for any one who attempts to drive a car without a license."

"Second—That this limit of punishment be administered in every case when the theft of an automobile is proven, whether the car is recovered or not, as it is only by making it a dangerous thing to do that this growing crime will be lessened or stopped."

"We further recommend that special legislation be enacted making the punishment for stealing automobiles much more severe."

The grand jurors then suggest that some law be passed which will make punishment exist for those who commit crimes against children and that less publicity be attached to such cases so that complainants are not afraid to prosecute.

## Liabilities of \$193,071 Against Man with \$3,356

Liabilities amounting to \$193,071 against assets of \$3,356 were listed yesterday against Garrett W. Woodward of 5056 Washington boulevard, in a voluntary petition in bankruptcy filed in the United States District court.

RIGHT THIS WAY, CAMELS! With all Chicago wrapped in gloom because of the enforcement of the bone dry act, the one bright spot on the horizon will be the Beverage show that opens tomorrow at the Coliseum.

## WOMEN BATTLE TO SAVE HOMES IN 'HELP' CRISIS

### Meetings Are Called and Plans Offered to Meet Problem.

### BY LUCY CALHOUN.

Will Chicago homes be broken up because of a lack of domestic help? Will Chicago families be forced into hotel life? Isn't there something to be done to relieve the situation?

These are the questions which women all over the city are discussing these days. A crisis is at hand in the domestic help problem, they say, and they are endeavoring to find ways of averting the catastrophes and strikes which threaten to wreck domestic hearths.

The women's clubs buzz with talk of the situation. The Housewives' league had a committee meeting yesterday of housewives who went to the Women's Trades Union league headquarters and discussed the eight hour day and others of the demands of the workers. In the evening the workers themselves, who are being organized into a union, met at the league headquarters and discussed their problems.

A week from Monday there will be a joint meeting in the rooms of the Chicago Woman's club, and Mrs. Ira Couch Wood has announced a "household management" conference for Jan. 6, at which there will be representatives from all over the country, who will discuss ways and means of simplifying housekeeping.

### Girls Debate Grievances.

Two hundred of the servant girls and three butlers discussed their troubles and grievances at the headquarters of the league. One of the butlers and about 100 of the girls joined the union. Girls were addressed by Miss Mary McInerney of the billiard girls' union and Miss Mary Haney.

Among the demands and grievances of the workers that were aired at the meeting were:

Abolition of the long hours and the setting of a definite time to be off duty. The right to entertain men friends and have them call at the houses.

More to eat.

A warm bed and a room for each.

As soon as you are organized we are going to take up these different grievances with the housewives for you," said Miss Haney.

Wages of houseworkers run from \$10 a week up to \$25, and there is even talk of dispensing with feminine workers in the house and relying upon men.

"Because," as one of the club women put it, "the men appreciate a good home and are willing to work for less wages."

### The Self-Help Plan.

"Away with the cross clock," says Mrs. Edward Bemis, a busy member of the Woman's Club. "Let's do the work ourselves and train our children to do it." Her plan is to have the children help with the housework. She plans modestly, is not here at all, but originated in the home of a busy clubwoman in New Jersey, was outlined as follows:

"A busy woman wants to get to her office at 9 o'clock, perhaps. She has no cook or domestic help of any kind. Here is what she does: She has a simple breakfast, after she serves that breakfast on wooden plates, in which are paper plates, which do not have to be washed, but which can be burned up. She uses this kind of service whenever possible."

"She puts the meat and vegetables for dinner in the fireless cooker. If there is soup, that also is cooking while she is away from home. When she returns in the late afternoon there is no much hurry."

"She puts the soup in a thermos bottle on the dining table. At the right of the host's chair is a tea wagon provided with hot water dishes, from which the entire meal is served."

## DRIVER SEIZED AS AUTO STRIKES AND INJURES TWO

Peter Jeske, 1529 McHenry street, and Stanley Pukila, 1412 Dickson street, were injured yesterday when struck by an automobile driven by Gustave Bucholz, an employee of the Illinois Packing company. Bucholz was arrested.

There was a commotion in the Evanston shopping district when an automobile backed through the window of a Woolworth store. Mrs. Oliver H. Perry, 2406 Grant street, Evanston, the driver, was slightly injured by fragments of glass. The automobile was given to her only a few days ago by her husband, a member of the brokerage firm of Curtis & Sanger, 129 South La Salle street.

Joseph Machowitz, 1217 West Campbell avenue, was injured when he was knocked down by an automobile driven by William Kosowoff, 1539 South Ridge-land avenue. Kosowoff was based on charges of assault with a deadly weapon.

Arthur W. Hill, 948 Wilson avenue, intoxicated and driving at high speed, caused the automobile accident in which his car was wrecked and himself, his sister, Mrs. Ray Taylor, and a friend, F. E. Miller, were killed on Oct. 19, according to the verdict of a coroner's jury, which held an inquest in Niles center.

## SUPREME COURT DECISION LOSES CITY \$94,000

Property owners who make a business of hiring lawyers to pick holes in the annual city tax levy ordinance are laughing in their sleeves today over the recent Supreme court decision invalidating the \$994,000 levy in 1917 for the Municipal Tuberculosis sanitarium.

About \$900,000 of the levy has been collected and spent and is thus lost to the citizens who pay their taxes and don't ask the reason why. But around \$90,000 can never be collected by the high court's decision.

The court held that the city council should have been more specific in stating the purposes for which the \$994,000 was to go.

## WESTERN BUYING AND WEATHER SEND UP CORN

Advance in Face of Miners' Strike Causes Surprise.

BY CHARLES D. MICHAELS.

Corn prices advanced, due to buying by houses with western connections and on the bad weather. In the face of the weakness in stocks in Wall street and the coal miners' strike the market's action was a general surprise, although gains were only 1/4 to 1/2 on the active trading futures. Cuts dragged and closed 1/4 lower. Rye gained 1/4 to 1/2 on the near and lost 1/4 on May, while barley was 1/4 to 1/2 lower in Chicago. Corn futures in Kansas City corner finished 1/4 lower to 1/2 higher, December leading in strength. St. Louis gained 1/4 on December and finished unchanged for May. Cuts were 1/4 lower to 1/2 higher in the southwest and 1/4 higher to 1/2 lower in Minneapolis. In Winnipeg near futures were 1/4 to 1/2 higher and arrivals 1/2 cars.

**Corn Eases With Stocks.**  
Bulls had the best of it in the corn market early, December advancing 1/4 to 1/2, the best figure since Sept. 24, but the buying support gave out and when the stock market weakened the corn followed, and at the bottom showed 1/4 to 1/2 under the top, only to close firm, with December at \$1.24 and May at \$1.24, the spread widening 1/4. In two days December has advanced 1/2 relative to the May.

Wet weather prevailed over the corn belt, with rain or snow forecasted. This, with the continued scarcity of cars and relatively small country offerings, made the bullish influences. A majority of traders are inclined to keep close to shore, however, in view of the many conflicting influences. Old corn sold readily, with prices 1/4 to 1/2 higher, while new was 1/2 to 1/4 higher. Receipts 62 cars, including 6 cars new. Shipping sales aggregated 75,000 bu., mainly new for foreign shipment.

**Light Trade in Oats.**  
Buying of December by cash houses who were removing hedges against sales of 175,000 bu. for domestic shipment was a feature in oats. There was also buying by commission houses for Minneapolis and New York accounts, but it had no significance. There were no new striking developments overnight and the local traders continue to believe that the market will follow the corn. Prices held within a range of 1/4 to 1/2, and closed slightly easier, with December at 71 1/2 and May at 74.

No increase was reported in country offerings, and the receipts at the elevator were less than the sales to the east. Sample values unchanged to 1/2 higher, with arrivals 98 cars.

**Mixed Trade in Rye.**  
Local houses were good buyers of rye early, and made a fair advance, but the bulls brought out selling from the north, west and with hedging pressure the close was rather easy, with prices 1/4 to 1/2 lower to 1/4 higher. Some sales of rye to arrive were made from the northwest. No. 2 on spot was 20 under December, with sales at \$1.36 1/2. Receipts, 9 cars. Barley declined 20, fears that the coal strike would hamper malting operations and the fact that Wisconsin brewers were closing down being the depressing influences. Offerings were small. Receipts, 10 cars. Spot sales were at \$1.30 1/2.

**Sell on Strike News.**  
Provision traders were affected by the reports regarding the probable strike of coal miners and its effect on consumption of hog products and meats generally. Packers said distributing points have light supplies, as declining prices of late have caused buyers to hold off. Should the strike be of long duration, it would be a factor, but with the foreign demand taking a good part of the surplus, especially of lard, it made the situation different from that of any other time. Should 750,000 miners go out, it naturally would create uneasiness.

Large sales of lard have been made for export of late and some of the packers say they are well sold up despite the heavy market. The latter is being required, as the demand for fat hogs has improved so that it is profitable to make them, and less product is being tanked than of late. Sales of refined lard for the day were 400,000 lbs. and 50,000 lbs. loose lard sold at 24.00 to 24.20. There were also good sales of meats made. Offerings of futures were light early and prices were firmer for meats and pork, but selling attributed to packers changed the action and a good decline resulted, the close being lower despite the advance in corn. Prices follow:

## WORLD'S GRAIN MARKET NEWS

A strike of the coal miners over greater part of the country is regarded as a bullish factor in the grain market. Traders say much depends on its duration. Most traders were inclined to sell corn on it yesterday, and expressed surprise at the strength shown in the market, with the small net advance at the last. This caused a few to regard the market as in a position to do better, while others asserted at the last that a break might come today. Absorption of corn by western houses continues a factor in the market, especially on weak spots. December corn is tightening and gains friends on the technical position.

Operation of the grain elevators at Chicago and at most of the leading primary markets, especially at Chicago, is not to be interfered with by the strike of coal miners unless it should last a long time. A canvass of the elevator interests shows that they have two to three months' supplies on hand. A long strike might affect the industries, as their consumption of coal is so immense that they would hardly have sufficient storage room to hold enough to last many months. In case of a shutdown of those using corn extensively it might have a depressing effect.

It was the gossip of the corn trade that one local professional who bought corn freely early, sold it out later. Illinois and Iowa were offering corn in a moderate way yesterday. It was suggested by a cash handler, that while some farmers are appearing indifferent about selling and say they will not do so until prices are higher, a few have taken advantage of bulges the last few days and have sold a little despite the wet weather. Many reports from the interior say it is too wet to husk corn, and that country shippers have cars, but cannot load them until the permits are received.

Many counties in western Kansas report 40 to 60 per cent of the wheat threshed. Frequent rains have caused considerable damage. Of the threshed wheat, much was piled on the ground on account of lack of storage and shipping facilities, and has deteriorated.

The Red Book Annex, published by Howard, Bartlett & Co. with all the grain statistics to Oct. 1, is out.

Shipping sales of cash grain at Chicago Thursday: Corn, 75,000 bu.; oats, 175,000 bu.; barley, 1,000 bu. To seaboard, 10,000 bu. barley.

Offerings of cash wheat were very light and quality rather poor. Only 3 cars out of 48 cars received graded No. 2. Red winters were slow and unchanged at the basic figures to 1c over, while hard winters were in good demand and unchanged to 1c higher, with 1000 offered in the basic grades. Choice springs sold readily, with prices unchanged to 1/2 higher. Dark No. 1 northern at \$2.85 being within 1c of the best figure of the season. Choice offerings at Minneapolis were unchanged, and for the kind unchanged to 1/2 lower. Receipts, 342 cars, against 437 cars a week ago, and 154 cars last year.

New corn at Chicago was 10 1/2 higher, with 19 1/2 per cent No. 4 yellow at \$1.33, and 18 per cent at \$1.35. Old was in good demand and 1/2 to 1/4 higher. Yellow brought a premium of 1/2 over white and mixed, although there was a better shipping demand for the white. Receipts 62 cars. A car of 20 lb sample grade white oats was received yesterday, the lightest grain yet received, and sold at 67 1/2. Heavy winter grain, sold readily, with prices unchanged to 1/2 higher. Receipts 98 cars.
